

# GERMAN REGIMENTS WIPE OUT

## BONNIE BURR CHASE TO CLOSE

She Keeps Rendezvous  
Today at Twelfth and  
Broadway

Then Tomorrow She In-  
vades Idora Park  
for Finish

(BY BONNIE BURR.)  
Watch for me today in the simplest  
kind of disguise, the most diabolical I  
have yet worn in Oakland. I feel almost  
certain that today will terminate the  
chase. If it does, tomorrow will, for  
I shall adopt a plan to end the search  
which cannot fail.  
If searchers do not apprehend me to-  
day I will visit Idora Park tomorrow  
night and stay there until some one cap-  
tures me. Some time between 7 and 8:30  
I will enter the park to remain until some  
sneaking one penetrates my disguise  
and arrests me correctly with the magic  
words of the salutation.  
Should the chase still be on tomorrow,  
look for me at this appointment, which  
must be my final one. In the light type  
reunite I have been wearing since Sun-  
day.  
The chase must end. I find the strain  
quite unbearable. The reward will  
be paid to my lucky captor on Friday  
night at the Orpheum Theater in full view  
of the audience. I will personally present  
THE OAKLAND TRIBUNE'S prize of  
\$250 in gold to the person who captures  
me.

**SUCH AN INCIDENT!**  
The most trifling incident occurring at  
a crucial moment can sometimes make a  
farce out of the most tragic occurrence.  
Life is crowded with little minor em-  
barrassing incidents, provoking, often hu-  
morous. It is a clever person who can  
meet these little perplexities with dignity  
and avoidance of mind.  
What would you have done if, when  
walking down the street with a rising  
young politician, earnestly discussing the  
war situation, you suddenly realized that  
you were in imminent danger of losing  
your shoe?

Dear me! I was horrified. I pulled  
my foot from a shuffling shambling  
becoming more and more dismayed as I  
realized that digging my foot down fran-  
tically and dragging my foot would not  
hang on to that shoe.

I was disgusted, you see. I had on low  
shoes three sizes too large with the extra  
space filled with cotton. They were fas-  
ened on by invisible elastic straps sewed  
on inside just above my toes. Well, one  
of those blessed straps broke and—im-  
agine my feelings.

To add to my embarrassment a candi-  
date for assemblyman was with me. I  
had just been introduced to him and we  
were walking down Thirteenth street. The  
young man, who seems to be of a serious,  
thoughtful turn of mind, noticed my mon-  
strous replies and gazed curiously at  
me. I could not hide the limp without  
losing the shoe and I was dreadfully em-  
barrassed. So was Mr. Cribbens, but he  
was cleverer than I.

Being nervous and overwrought from  
the long chase, I did what most women  
would have done, stopped and sobbed  
into laughter, hysterical, helpless, uncon-  
trollable mirth.

**IN EMERGENCY.**  
Mr. Cribbens stared, looked dazed a  
moment and then asked with deep con-  
cern: "Why, what is the matter?"  
"I'm going to lose a shoe," I gasped  
between bursts of merriment.  
He looked at my feet and burst out  
laughing: "No wonder!" he exclaimed.  
"The rubber band inside that keeps it  
on has snapped," I explained ruefully.  
"Is that all?" asked the young man.  
From an inside coat pocket he produced

(Continued on Page 7)

## When And Where Bonnie Burr Appears Today and Tomorrow

The chase for the mysterious MISS BONNIE BURR, the girl with  
the pink mask, the elusive MISS BONNIE BURR, who will visit  
"IDORA PARK" TOMORROW NIGHT, entering some time between  
7:30 and 8:30 o'clock, where she agrees to remain until some one ap-  
prehends her.  
Be sure you have the very LATEST EDITION OF THE OAKLAND  
TRIBUNE of the current day's issue in your possession. It is neces-  
sary you have a copy of this edition when you catch MISS BONNIE  
BURR.

TODAY NOON between 12 and 1 o'clock MISS BURR will appear  
on the corner of TWELFTH AND BROADWAY.

At IDORA PARK there will be only one appointment TODAY and no  
other appointments TOMORROW. MISS BURR's only and last ap-  
pointment in this city will be at IDORA PARK TOMORROW NIGHT,  
where some one will be entitled to the extent of \$250 in gold.  
Remember, too, that under no consideration will MISS BONNIE  
BURR recognize the salutation at any other place or point. The cap-  
ture must take place in IDORA PARK.

The magic words that will make some one happy TOMORROW  
NIGHT are: "PARDON ME, YOU ARE THE MYSTERIOUS MISS  
BONNIE BURR OF THE OAKLAND TRIBUNE, THE FASTEST  
GROWING PAPER IN CALIFORNIA."

King Albert of Belgium and his  
queen, who may be called on to  
defend Brussels if present German  
advance is successful. View show-  
ing royal palace at Brussels.

## Paris Not Excited Over Battle News

PARIS, Aug. 12.—There has been  
no undue excitement in Paris over the  
reported losses or victories to French  
arms. There have been painful  
scenes, however, around the ministry  
of war on the news of engagements.  
Great crowds of relatives of the sol-  
diers have been seeking names of  
those killed or wounded. No lists  
have been published.

## GERMAN AND ENGLISH WARSHIPS SIGHTED OFF GATE; BATTLE IMMINENT

SAN FRANCISCO, Aug. 12.—The British sloop of war Al-  
gerine was spoken off Cape Mendocino at 5 p. m. yesterday by the  
American coaster Beaver, which arrived here from Portland to-  
day. The Algerine was cleared for action and not a sailor's head  
showed above the rails. The Algerine wig-wagged the Beaver to  
approach and the two vessels lay alongside while the captains  
talked through megaphone for half an hour.

"For God's sake," implored the captain of the Algerine, as they  
parted, "don't tell the Leipzig where we are. We're too small."  
On making port today Captain Mason of the Beaver sighted the  
German cruiser Leipzig twenty miles outside the heads and heard  
her wireless talking, as he supposed, with the shore. The proba-  
bility is, as such communication is strictly forbidden under the  
neutrality regulations enforced by United States radio inspectors,  
that the Leipzig was in touch with the German cruiser Nurnberg,

also sailing off the coast.

## ALGERINE DODGES UP COAST.

The Algerine reported that she was without wireless and for  
ten and a half days she had been dodging up the coast from San  
Diego. Her captain had no news of the war, and at first was even  
a little skeptical that war really had been declared. He was glad  
to hear that the Rainbow was safe, but had no information as to

## NAVAL BATTLE ON ATLANTIC

### WAR BULLETINS

LONDON, Aug. 12.—News received  
here from Athens says Serbian troops  
are marching into the interior of  
Bosnia. They are at present before  
Sarajavo. The Serbian legation here  
was the source of this information  
and it was added there that the Mon-  
tenegrins had been victorious in Dal-  
matia, capturing the bayonet point, the  
towns of Boudovon and Spetzos. The  
Times publishes a dispatch from  
Paris which says that the report that  
Montenegrins occupy Mount Tara-  
bosch, dominating Scutari, is con-  
firmed.

LONDON, Aug. 12, 9:30 a. m.—A  
dispatch from Rotterdam says that  
the Nieuwicht of the Rotterdam Cour-  
ant has been positively assured by  
German officers at Vise that the  
Crown Prince's regiment crossed the  
River Meuse some days ago without  
the Prince.

NEW YORK, Aug. 12.—Quarantine  
observers reported that the British  
cruiser Suffolk was still off the en-  
trance of New York harbor last week.  
She was reported at intervals from  
10 o'clock last night until 4 o'clock  
this morning, patrolling the entrance  
to Ambrose channel. Several of the  
Sandy Hook pilots saw the cruiser.

ATHENS, via Paris, Aug. 12, 2:50  
p. m.—The German cruisers Goeben  
and Breslau have entered the Darda-  
nelles.

## HEAVY ARTILLERY FIRING MARKS TONGRES FIGHT

### BULLETIN.

PORTSMOUTH, N. H., Aug. 12.—A telephone message received  
here from the Isle of Shoals at 5:30 p. m. today said a naval battle be-  
tween a British and a German warship could be seen from the roof of  
a hotel there.

LONDON, Aug. 12, 7 p. m.—The struggle between the Belgians and  
the Germans for the Liege ports recommenced today. The forts are  
being fired on and are returning the fire of the Germans with vigor.

The German troops are in movement with the evident intention  
of crossing the river Meuse. Convoys have been sighted proceeding to-  
ward Engis, a town to the southwest of Liege.

LONDON, Aug. 12, 7:45 p. m.—War between Great Britain and  
Austria-Hungary, it is expected in London, will be declared tonight.

## GERMAN REGIMENTS ANNIHILATED.

LONDON, Aug. 12, 5:45 p. m.—A Rome dispatch to the Central  
News says the Messaggero publishes a message from Basel, Switzer-  
land, stating that two German infantry regiments were annihilated  
during the battle with the French troops at Muelhausen.

The German regiments mentioned are the Eighth Baden in-  
fantry regiment, number 169, which was stationed at Lahr in Baden,  
and the Fourth Prince William's Baden infantry regiment, number  
112, stationed at Muelhausen.

The commander of the 20th division attached to the Fourteenth  
Army Corps, whose headquarters were at Freiberg is said to have been  
killed.

Another dispatch from Rome to the Central News says the Cor-  
riere D'Italia publishes a telegram from the frontier stating that an  
Austrian cavalry brigade has been exterminated on the Austro-Rus-  
sian frontier.

The Austrian cavalymen are said to have attacked the Cossacks  
who were accompanied by artillery. They were unable to hold their  
own and tried to get back across the frontier, but rain had fallen,  
and men and horses were caught in the marshy ground and shot down  
until not a man remained alive.

## BATTLE IN BELGIUM TERRIFIC.

AMSTERDAM, via London, 2:20 p. m., Aug. 12.—A dispatch from  
Maastricht to the Telegraaf says terrific artillery firing was heard  
throughout the morning coming from the direction of Tongres, to the  
north of Liege. The concussion was felt in Maastricht.

A great battle incident to the German's march on Brussels is  
supposed to be raging.

## MARCH THROUGH HEART OF BELGIUM.

BRUSSELS, via London, 11:20 a. m., Aug. 12.—The German  
army is being detached from its position before Liege and is ad-  
vancing through the heart of Belgium. The main body of Ger-  
man cavalry is engaged in a forward movement all along the front  
of the allied armies.

## TO BOMBARD FINNISH FORT.

LONDON, Aug. 12, 9:30 a. m.—The Russian commander of the  
fortress of Sreaborg, Finland, has ordered all the inhabitants of  
that place and Helsingfors to leave, as a battle or a bombardment  
is believed to be imminent.

## SHELL FORTS NIGHT AND DAY.

LONDON, Aug. 12.—The corre-  
spondent of the Standard at Brus-  
sels says:

"All twelve of the forts sur-  
rounding Liege remain intact.  
Each fort thus far has been able  
to resist the frequent attacks of  
the Germans' invest force, al-  
though outnumbered ten to one,  
at every fort.

The forts are being shelled day  
and night. Artillery action is  
followed repeatedly by daring  
infantry attacks."

A dispatch to the Standard from

bodies from becoming a menace to  
the living. Many other bodies were  
thrown into the Meuse to float sea-  
ward.

## GERMANS ENTRENCHING.

The Daily Chronicle military ex-  
pert attaches the highest importance  
to the British press bureau's an-  
nouncement that "German troops are  
reported to be entrenching along the  
line of the river 'Aisne'."

He comments as follows:  
"This means that the Germans in  
force have penetrated for a consid-  
erable distance into French territory  
from the Belgian frontier. This is  
a most serious matter."

from a military point of view about  
the French incursion into Alsace. The  
Germans must have penetrated in  
the rear of the French lines along the  
upper reaches of the River Aisne. The  
mere fact of entrenching suggests a  
strong body of infantry."

PORTS DISABLED AEROPLANE.

# GERMAN HEAVY ARTILLERY TO RAKE LIEGE FORTS

## BATTLE BETWEEN TWO SHIPS OFF HALFMOON BAY TODAY REPORTED

(Continued From Page 1)

The whereabouts of the sloop of war Shearwater, the only other British vessel in these waters.

A group of students returning to the University of California lined the rails of the Beaver as she drew away and gave their college yells for the Algerine.

The Nurnberg and Leipsig are believed to be in the offing of San Francisco bay, waiting to seize contraband of war and to give fight to the British-French coalition which is presumably forming, and which probably will fire its first shots within sight of the

### MAY PICK UP SUBMARINES TODAY.

The position of the British-Canadian cruiser Rainbow is north of Point Arena, where she is waiting for two British submarines which are being towed south to meet her. The submarines were reported off Cape Flattery early yesterday morning. It is probable that the Rainbow will pick them up today.

The position of the Shearwater is not known exactly, but it is believed to be coming north in company with the French cruiser Albatross to join forces with the Rainbow and the submarines and give battle to the Germans. When the two naval forces meet it may be within sight of the Cliff House.

Yesterday the Farallones, twenty-five miles distant, could be seen from that point. Both German cruisers have been spoken within that distance.

Taking into consideration the speed of the vessels, there is probability of a battle. The Rainbow can pick up the submarines and be back again late this evening. They can reach the Farallones at the same time as the Rainbow.

In addition to the British naval force off this coast two Australian cruisers are hurrying north. Their primary object is to prevent the cutting of the British cable from Vancouver to New Zealand and Australia at the company's station on Fanning island.

Since the two German cruisers in these waters are occupied off the coast, there is little fear of any cable-cutting at present. The Vancouver office of the cable company yesterday expressed its opinion that the Australian warships would leave a force of marines at Fanning island, then hurry to this coast to assist the other British vessels.

The mystery of the wreckage washed ashore from one of the war vessels hovering off the coast of California today grew deeper hourly.

### SEA BATTLE REPORTED.

A fight off Halfmoon Bay between two warships was reported from a government storehouse, but the vessels were too distant to be well made out.

From the life-saving stations patrols were sent miles south and north of the Golden Gate, and additional wreckage was found today, but nothing to positively identify the vessel from which it came, or to indicate whether it had gone down. If the wreckage is not due to a battle already fought by German and British vessels, it indicates they are stripping for battle.

Whether the two German men-of-war now patrolling outside the harbor take any prizes or not is largely a matter of how long their coal holds out. There are eight British vessels and three Frenchmen due here at almost any time.

The Leipsig can come into port for sufficient coal to take her to the nearest home port at any time she wishes. In the case of German vessels off this coast the nearest home port is Paluali, island of Savaii, German Samoa, distant between two and three weeks' steaming.

### LAST PORT OF CALL HONOLULU.

The Nurnberg is in a different plight. Her last known port of call was Honolulu, under the American flag and she is not eligible to call for coal at another American port for three months subsequent to the date of her departure, unless in the meantime she has touched at a home port. Inasmuch as she was sighted west of Honolulu on July 29th, near Midway island, this is not believed possible.

Either she must capture coal soon or put back to Samoa for it. A possible complication in the situation is that a British tramp laden with coal consigned to the United States coaling station at California City, on San Francisco bay, is due here soon. As a ship under the registry of a hostile nation, this colliery is technically liable to capture, whoever the consignee.

Seventeen British vessels, two Frenchmen and five Germans are tied up in the harbor. Four of them are laden and two have taken out their clearance papers, but don't dare move. Among them is the Union Liner Moana bound for Australia, due to sail tomorrow.

The Pacific Mail Steamship Company cancelled today the sailing of its liner Persia, due to clear August 22d for the Orient. The Persia is under British registry and will be kept in this port until further notice.

The odds in numbers are against the German cruisers Nurnberg and Leipsig, waiting for the French cruiser Moncalm and five British vessels.

Fast cruisers are hurrying from Australia, chiefly to protect the landing of the cable on Fanning island.

It is believed that the British cruiser Rainbow, if the wreckage is hers, may have been stripped for early action.

Two submarines are coming from the Esquimaux naval station to join the Rainbow.

The French cruiser Montcalm is reported coming from the south.

The whereabouts of the British warships Albatross and Shearwater has been an additional mystery. They are believed to be with the Montcalm.

Two ships were seen in battle six miles off Half Moon bay, according to Eugene Hadley, tinsmith at the government storehouse. He wrote the news to a relative, "Busty" Hart, watchman for the Crowley Launch Company.

Dense smoke hindered the view and when it cleared only one ship was seen steaming far out to sea, according to Hadley.

SHIPS MAY GO NORTH. SEATTLE, Aug. 12.—It is supposed that the Albatross and Shearwater will come to the North Pacific. No definite ship is in the North Pacific, so far as is known. Great Britain is seeking to keep open the trade route from Brit-

### LOADING BIG GUN ON ONE OF GREAT BRITAIN'S DREADNOUGHTS

## WHAT HAPPENED AT LIEGE, FROM FRENCH AND GERMAN VIEWPOINTS

### Denies Loss of 20,000 Germans; Loss of Forts by Belgians Denied by French Minister

LONDON, Aug. 12.—The correspondent of the Exchange Telegraph Company at Rome says that a dispatch from Berlin gives an official statement by General Von Stein regarding the siege of Liege.

The German commander denies the loss of 20,000 men, but does not give his losses. He says that a small number of German troops were engaged in order to mask the movements of the bulk of the army.

The army's advance attacking force, he says, was completely annihilated and while admitting that the forts remain intact, explains this by saying:

"The emperor did not wish to sacrifice his army unnecessarily, but as soon as the heavy artillery arrives the forts will be taken without the loss of a man."

General Von Stein admits that the capture of the forts is a difficult problem because of the unfavorable ground about them, and further because the population of the town, including the women, shot at the German troops from behind, firing indiscriminately, hitting the surgeons and the wounded.

The German commander concludes with the remark that "it must not be forgotten that the Belgian forces are numerically superior to ours."

LONDON, Aug. 12, 11 a. m.—The military position at Liege, Belgium, also along the Franco-German frontier where the opposing outposts are in touch, and in Alsace, where severe engagements between a French invading force and the German defenders recently were fought, is explained in a dispatch from the French foreign minister received here this morning. He says:

"Rumors regarding the loss of the forts of Liege by the Belgian troops are entirely false. Only small groups of German soldiers entered the town itself under cover of the darkness. All the encircling forts, twelve in number, are intact."

"Small unimportant engagements have occurred along the whole line where the French and German armies are facing each other, from Belfort, opposite the southernmost part of Alsace, to Liege in Belgium. In these encounters the French cavalry has always maintained its superiority over the German mounted troops, while our artillery has been splendidly served."

"Our troops have kept the crests and passes of the Vosges mountains and they dominate the heights of Alsace. The French government indignantly denies that there was any violation of German territory by the French army before the declaration of war."

## U. S. EMBASSIES TO CHARTER VESSELS FOR RESCUE OF WAR-MAROONED CITIZENS ABROAD

WASHINGTON, Aug. 12.—Authority was today given American embassies and legations throughout Europe to charter ships in which to bring home Americans.

Secretary Garrison, as chairman of the relief committee, composed of the secretaries of state, war, navy and treasury, sent out instructions to each embassy and legation to make inquiry as to available ships and if Americans can be concentrated at open ports, immediately to charter neutral ships. The diplomatic officials were told not to pay higher rates than those usually charged by the liners for a similar service.

TO HASTEN TRANSPORTATION. All thought of sending vessels over by the United States to bring back the Americans has been abandoned. It is felt that the moving of the refugees may be greatly expedited by the charter of neutral vessels wherever they are available.

Little is definitely known as to the number of Americans desirous of returning home immediately. Secretary Garrison said today the diplomatic officials had been instructed to give preference to such tourists of small means who will be immediately embarrassed financially should their return be delayed. He expects no difficulty in transporting the refugees to the seaports.

CABLE INQUIRY. The British embassy, at the request of the state department, today called the London foreign office for the facts as to aliens landing in England. Its action was on a report that Great Britain was enforcing such strict immigration regulations that they practically precluded any alien from stepping on English shores. The state department feared that the stranded Americans desiring to return to the United States might not be able to return to England even to take passage for this country.

As no response has been received to state department inquiries concerning Mr. and Mrs. Archer M. Huntington of New York, reported under arrest at Nuremberg, Bavaria, Charge Haimhausen of the German embassy today undertook to send a message to Berlin in their behalf.

ANTWERP PORT CLOSED. Consular reports from Antwerp say that the port is closed to the British steamers San Giovanni, San Giorgio and San Guglielmo have been placed at the disposal of American tourists in Italy and will sail from Naples, each with 1000 Americans aboard, on August 15, 18 and 19 respectively.

HONOLULU, T. H., Aug. 12.—A cablegram received today from Yokohama, Japan, says that the ship Nite, which has just arrived from Honolulu, has canceled her trip to Hongkong and back to the United States. According to a report a German cruiser is in the straits near Kobe, Japan. The Nite is a chartered British steamer. She left San Francisco on July 25.

OBTAIN ITALIAN STEAMERS. NEW YORK, Aug. 12.—The Italian steamers San Giovanni, San Giorgio and San Guglielmo have been placed at the disposal of American tourists in Italy and will sail from Naples, each with 1000 Americans aboard, on August 15, 18 and 19 respectively.

REAR ADMIRAL AARON WARD, retired, will take command of the American fleet in European waters. He is at Aix-les-Bains, France, and today called Mrs. Mabel Boardman to his acceptance of the command.

The Red Cross is now gathering funds to fit out the ship, which is to be selected and chartered by a committee headed by Surgeon General Taft of the navy.

Up to today nearly a million dollars had been deposited with the government by Americans for relief of friends or relatives in Europe. One St. Louis woman had \$25,000 deposited to her credit at the St. Louis post office.

The total deposits included the following amounts: State department, \$119,000; United States treasury, \$158,784; New York sub-treasury, \$199,000; Boston, \$28,250; Philadelphia, \$31,355; Baltimore, \$17,072; Chicago, \$67,835; St. Louis, \$31,993; Cincinnati, \$31,173; and New Orleans, \$4390. San Francisco has not reported any deposits.

## GERMAN TROOPS ARE ANNIHILATED

### Austrian Cavalry Brigade Is Exterminated on Frontier.

(Continued from Page 1)

The newspapers here announce that a German aeroplane flying over Namur was brought down by the first of the forts and that two officers in the machine, uninjured by the fall, were taken prisoners.

Six thousand German troops, it is reported, seized the station of London, west of Liege, and stopped a train from Brussels. They permitted the passengers to go, but destroyed the station, removed the rails and drove out railway employees. The passengers were compelled to return on foot to Tirlemont.

According to fugitives from London the Germans burned many villages, giving the inhabitants half an hour for flight. The German force, it was said, had field and machine guns.

EVACUATE LIEGE FORT. The following official announcement was made today:

"The Germans have evacuated the Liege fort at Liege, and it has been reoccupied by the Belgians. The Germans also appear to have retreated at other points."

"The condition of the Belgian army is good. There was no fighting yesterday."

Anticipating an attempt by Germany to enter Holland from the north by closing Dutch Limburg, which would oblige the Belgians to cover the frontier on that side, the Belgian government has asked Holland to give assurances of her intentions in the event that Dutch neutrality is violated.

"VALUE OF KRUPP GUNS." BERLIN, via Copenhagen, to London, Aug. 12.—The Lokal Anzeiger, in an article dealing with one German victory at Muelhausen, Alsace, says:

"The silence of the western frontier following the brief but swift entry of small forces of French into Altkirch, has been broken by the brilliant news of our first battle at Muelhausen, the Weissburg of 1914."

But this fight was much more important than was that of Weissburg in 1870 (when the Germans won their first important battle of the Franco-Prussian war) considering the number of combatants engaged.

"We understand the French had three divisions of about 55,000 men. Two divisions belonged to the Seventh army corps and also contained a portion of the Bensachin corps, whose members are among the elite of the French army. We do not know the extent of the artillery and cavalry engaged, but we believe that the French in Muelhausen have now a new idea of the value of Krupp guns."

"Naturally the French would have fortified the positions at Muelhausen with earthworks, but an army like the German army, which takes fortresses by assault, would find themselves little troubled by such obstacles."

POPE OVERWHELMED WITH GRIEF OVER GENERAL WAR

with grief by the outbreak of war among all the principal nations of Europe that he is unable to do any work, and sits listless and silent for hours every day. Although His Holiness is not ill, his condition is causing grave anxiety to his attendants.

## BRITISH PATROL SHIP FIRES SHOT ACROSS BOW OF VESSEL BY MISTAKE

NEW YORK, Aug. 12.—The strictness of the patrol established by British cruisers outside New York harbor was demonstrated by the experience of the Norwegian tank steamer, Conrad Mohr, which reached here today from Bergen and Shields.

The captain said he was hailed last night by a three-funnelled cruiser. Apparently the steamer did not stop or reply as quickly as the cruiser desired, for a shot was fired across her bow within a short interval of time. The steamer left on her trans-Atlantic trip before war was declared and her officers were astonished at the summary action of the cruiser. They stopped immediately, but were permitted to proceed after establishing the steamer's identity.

At 1 o'clock this morning, about 10 miles from New York, exactly like the first encounter, bore down close alongside the steamer, fired a shot and asked for the steamer's name and nationality. When these were given the steamer was told to go ahead.

The Western Atlantic Ocean is clear for shipping in the area as far south as Trinidad, according to announcement made by Admiral Sir Christopher Cradock of the British cruiser Suffolk, through the British consulate here.

The consul went on to say that there were five warships, five British, in the Western Atlantic and that their patrol was so effective that all British shipping interests had been assured that there was little damage from German craft.

## WAR BULLETINS

By Associated Press.

VIENNA, via London, Aug. 12.—The Austro-Hungarian Ambassador to Italy, Kajetan Mery de Kapos-Mere, has resigned his post on the ground of ill-health. Baron Karl von Macchio, departmental chief at the Austro-Hungarian foreign office, has been appointed to succeed him temporarily.

WASHINGTON, Aug. 12.—Mr. and Mrs. Archer M. Huntington are "safe and well in the Grand Hotel at Nuremberg," according to a consular dispatch today which makes no mention of their having been arrested or released.

BRUSSELS, Aug. 12, via London, 1:15 p. m.—It was officially announced here today that the German retirement reported yesterday is becoming more marked. No other news from the front has been made public.

PARIS, via London, Aug. 12, 2 p. m.—Tomasso Tittioni, Italian Ambassador to France, issued and has had posted at the Italian embassy and in the Italian quarters of Paris today a signed notice stating that "Italy has proclaimed and will maintain the strictest neutrality. Therefore, there is no need for Italians to be alarmed. They may continue to reside in France in full security."

LONDON, Aug. 12, 9:30 a. m.—The Copenhagen correspondent of the Daily Mail says: It is ascertained that the German torpedo boat destroyer reported to have been sunk by the explosion of one of her boilers off South Gedzer, August 5th, really was destroyed by a mine laid by a German warship. The Danish and Swedish lines, it is reported, ceased running as a result of information that the Germans had laid contact mines in the North Sea.

VIENNA, via London, 2:25 p. m., Aug. 12.—An effective blockade of the Montenegrin coast has been established since yesterday by the Austria-Hungarian fleet, according to an official announcement here today.

BOSTON, Aug. 12.—A battle at sea between a British cruiser and German cruiser, about 250 miles north of San Salvador, was reported by Captain Terjesen of the Norwegian fruit steamer Loveland, which arrived last night from Banas, Cuba. The German warship finally was forced to flee before the broad sides of the British cruiser, according to Captain Terjesen, who said several shots fell near his ship. The battle, he reported, occurred on Thursday night, August 6th, in approximately latitude 27 north, longitude 74 west, and heavy firing was in progress for half an hour. When the German cruiser moved away the British warship gave pursuit, shelling the fleeing vessel with her forward guns, while the German cruiser fired its after batteries. Whether either ship was seriously damaged could not be learned.

LONDON, 6:25 p. m., Aug. 12.—A Central News dispatch from Nish, Servia, says Prince George of Servia was wounded while watching the Austrian bombardment of Belgrade today. The Prince was standing on the walls of the fortress when a fragment of a shell struck him on the head and rendered him unconscious. The wound is said not to be dangerous.

LONDON, Aug. 12, 4:20 p. m.—The pending battle, it is believed here, renders futile the plans of the American relief committee to send a delegation to Germany under the lead of John H. Finley, commissioner of education of New York, to relieve distressed Americans there.

BRUSSELS, via London, 4:20 p. m., Aug. 12.—A letter received here from Liege says the German general staff is installed there in the Convent of the Sacred Heart, which is strongly barricaded. The Germans, it adds, are accumulating quantities of flour in case they should find themselves invested instead of being the besiegers.

U. S. HANDLES WIRELESS. LONDON, Aug. 12.—The United States wireless station is handling the Central American messages heretofore entrusted to the United Fruit Company's steamers. Code and cipher messages, including the official dispatches of the warring nations are not accepted. The United Fruit Company's steamers fly the British flag and operate from American ports and so are not allowed to use their wireless.

Don't Wear Glasses

Unless they are ABSOLUTELY PERFECT KAYLER'S GLASSES are highly recommended for strained and weak eyes, poor sight, tired, itchy, watery inflamed, sore, red, itching spots, crusts or granulations, cataracts, cross-eyes, astigmatism, headaches, eye defects. Two gold medals and diploma of honor awarded at California Industrial Exposition, also at Mechanics' Fair, October, 1913.

GEORGE SWEETLAND, Graduate German Expert Optician. Established 20 years, 560 Market St. Opposite Empire Theater, San Francisco. Mayer's Eyewater, at Druggists, 50c; by mail, 65c.

## SCANT DISPATCHES SHOW RIGID WAR CENSORSHIP

The meagreness of dispatches from the war centers of Europe today appears to be due to the fact that no hint is allowed to pass over the cables as to the progress of events or as to the positions or movements of the huge armies of German, French, British and other troops, which it is assumed must be within striking distance.

An assumed Brussels dispatch received via London says: "The German retreat reported yesterday is becoming more marked today." The significance of this statement can only be guessed at. It may mean that an engagement in force actually is in progress, or it may refer only to the general covering movements that have been in course of execution for several days in Belgium.

# MONTENEGRINS TAKE CITY

## SCUTARI CAPTURED; SERBIANS FIGHTING

## STAR TO PATROL LONDON ORGANIZING ACTOR FORCE

ROME, via London, Aug. 12, 4:40 p. m.—The newspaper, Corriere Della Sera, states that the Montenegrin troops have captured Scutari.

### SERBIANS BOMBARD CITY.

NISH, Serbia, Aug. 12.—The Serbian and Montenegrin armies which had effected a junction on the border of Herzegovina, are now operating together.

Serbian artillery is engaged in the bombardment of Gorashda, on the River Drina, twenty-nine miles southeast of Sarajevo, the Bosnian capital. Serbia's troops already had captured the Bosnian town of Vardishta at the junction of the Rivers Drina and Lim.

Some outpost encounters are reported on the Serbian frontier at different points on the Rivers Save and Danube.

Reports reaching here from Sofia state that the Bulgarian government is preparing for eventualities, but it is not known what it has in view.

## ENEMIES PONDER FIGHTING RIGHTS

Germany and Great Britain Regarding Their Merchantmen.

LONDON, Aug. 12.—The Gazette today publishes the details of the negotiations between England and Germany regarding the status of their merchant shipping in ports of the enemy.

A dispatch from Berlin received here yesterday said that the German and British governments had requested the American embassy in Berlin to intervene for the purpose of fixing the time in which the merchantmen of the two countries must quit the ports of the enemy.

From the matter published by the Gazette it appears that Germany, on August 4, proposed to the British government the mutual liberation of interned ships.

Apparently no reply was made to the German communication, but the British government, through the American ambassador, Walter H. Page, made known to Germany this decision of this government regarding the treatment of enemy ships and asking whether this would meet the views of Germany.

The negotiations continued through the intermediary of the American ambassadors at Berlin and Stockholm, but no communication was received from Berlin and the British government has no knowledge of the treatment being accorded to British ships and cargoes in German ports.

## MAILED FIST TO AID PEACE PLAN

Marines and Gunboats Will Be on Hand During Dominican Negotiations.

WASHINGTON, Aug. 12.—A full regiment of American marines in addition to the gunboats Castine and Murieta, will be on hand to lend weight to President Wilson's peace plan, which is being communicated in its final form to Santo Domingo City to lay before the Dominican republic's warring factions within the next day or two.

Secretary Daniels yesterday ordered the transport Hercules with the Fifth Marine Regiment from Guantanamo, Cuba, to Santo Domingo City, where she should arrive late today. The gunboats already are there.

No orders for landing the marines have been given. Their presence in the harbor, however, is expected to be a deterrent to any further hostilities.

The peace commission, Minister Sullivan, former Governor Fort of New Jersey and Charles C. Smith of Boston, left Havana for Santo Domingo City via Santiago.

## Steamer Fired at in Canadian Waters

CHARLOTTETOWN, P. E. I., Aug. 12.—The Black Diamond steamer Morwenna, which arrived here last night from Montreal, on her way to Sydney and Newfoundland, has an exciting experience coming down the St. Lawrence river. When off Quebec Saturday evening two shots were fired at her from the Lewis shore. The captain kept the Morwenna full speed ahead, not knowing the reason for the firing. When off the island of Orleans two more shots were fired. The projectiles passing over the steamer and falling about 100 yards beyond. Shortly after the government cutter Belle Chase came into view and ordered the Morwenna to put in at Quebec to have her clearance papers examined and endorsed.

## GERMANS HALT ITALIANS.

GALVESTON, Texas, Aug. 12.—The Italian steamer Morgoglio, which arrived in port yesterday from Naples, reported being held up and boarded by an officer and fourteen men from the German cruiser Karlsruhe at sea. August 10, 200 miles east of the Bahamas. Captain Montuori said the German compelled him to submit the ship's papers and declare under oath he was not carrying passengers, arms or ammunition, before he was allowed to proceed.

## REPORT ON U. S. EXPORTS.

NEW YORK, Aug. 12.—At a special meeting tomorrow of the New York

commission appointed to consider means for opening up export trade will make its report. The committee has held conferences with merchants and bankers, by many of whom it has been contended that the risk of shipment to European ports is not so great as has been supposed. It was generally believed by the committee members and others that the shipping situation would be relieved in a few days.

## EMPEROR SERIOUS, BUT CONFIDENT

Says German and Belgian Troops are Numerically Equal.

BERLIN, via Copenhagen, Aug. 11, to London, Aug. 12, 2:20 a. m.—Emperor William yesterday received James W. Gerard, the American ambassador, in the palace garden and conversed with him at length. The Emperor appeared to be in a serious mood but confident. He spoke of the capture of Liege, where he said the German and Belgian troops were about numerically equal. The Belgians, he added, were behind fortifications, but the Germans charged with bayonets and destroyed everything. The Belgians were put to flight, abandoning arms in great numbers, he declared.

The German and British governments have requested the American embassy to intervene with the purpose of fixing a time for the merchantmen of the two countries to quit the ports of the enemy.

Tuesday morning all Americans desiring to depart from the United States were called to the embassy to be enrolled.

The first list of losses in the fighting was published today. It contained only 54 names.

Many rumors are in circulation here. Among them are statements that Namur, Belgium, and Belfort, France, have been captured. There is no confirmation, but the reports are believed here to be true.

## KAISER MAY MAKE FAR EAST NEUTRAL

Other Nations Await His Policy Regarding 'Chinese Waters.'

WASHINGTON, Aug. 12.—The question as to the establishment of a neutral zone in Chinese waters which has been occupying the attention of officials here since the outbreak of hostilities in Europe is not yet settled. Although it is believed that some sort of agreement will be reached before many days which will provide for the neutrality of at least certain portions of the Far Eastern waters. Secretary Bryan said yesterday "definite proposition had been advanced."

Whether there will be aggressive movements in the Far East depends, in the opinion of officials and diplomats here, principally on Germany, and there is a variance of opinion as to what Germany will do.

Attention was called to the fact that at the request of the European powers Japan refrained from active hostilities during the Chinese-Japanese war in the province of Shanghai, where there was a large international colony; and during the Russo-Japanese war Shanghai also was held by the two warring powers as virtually neutral ground.

## U. S. Army Officers at British Front

## Rush Troops to Quell Uprising in Ecuador

GUAYQUIL, Ecuador, Aug. 12.—Troops have been sent to the coast province of Manabí to quell an uprising. It is believed that the rebels will be crushed soon.

## Russians, Detained, Allege Mistreatment

ST. PETERSBURG, Aug. 12 (Via London).—It is announced from government sources that thirty-six prominent Russians who spent the summer at health resorts in the south of Germany, including the Countess Vorontzow-Dachkoff, wife of the Russian ambassador, and two daughters, M. Schebeko, a member of the Council of the Empire, and other persons, suffered great hardships at the hands of German officials. According to this report some of these were temporarily imprisoned during their journey to the frontier, which, owing to the frequent hindrances, occupied several days. It is asserted that the aristocratic ladies were roughly handled by police and soldiers of the military.

## EXTRADITION SUSPENDED.

NEW YORK, Aug. 12.—Three New York detectives who went to Europe to bring back persons indicted here, must return without their prisoners. Word to this effect has been cabled to two of the officers in Paris by the state department in Washington. It was explained that extradition has been suspended during war times.

SIR HERBERT BEERBOHM TREE AND HIS DAUGHTER, INSEEN IS SIR GEORGE ALEXANDER, ACTOR.

## Daughter's Patriotism Inspires Beerbohm Tree

LONDON, Aug. 12.—When a man's daughter goes off to the war as a trained nurse it is time a man does something himself. Sir Herbert Beerbohm Tree believes that way—and won't let his daughter have anything on him in patriotism. As a result, the noted theatrical producer is to be a special policeman, one of the force of 30,000 organized today to aid in patrolling London during war times. Yesterday men, actors, bookers, bankers, and many of all classes have been enlisted in the new organization.

The force was called together following the news that German reservists were organizing in London, and orders have been issued to hold all such as prisoners until war is over or until they can be exchanged as prisoners of war.

Cyril Maude, Sir Herbert Tree and Sir George Alexander are organizing the actors of the force. Viscount Goschen leads the bankers. These men may probably be made police captains. The daughter of the noted dramatic leader several days ago enlisted in the force of the Red Cross and is to go to the front as a nurse. While she's away her father says he'll patrol London or guard Germans.

## CABLE SERVICE CONFERENCE HELD

German Embassy Charge Confers With Bryan on Code Message Exchange.

WASHINGTON, Aug. 12.—Haniel von Halmhausen, charge of the German Embassy, conferred with Secretary Bryan today on wireless and cable communication between America and Europe. The charge had previously requested that the State Department permit code messages to be exchanged directly between the United States and Germany, which now are barred by the military censors in England, through which country all cable messages must pass to reach Germany.

The charge also was desirous that the German-owned wireless station at Sayville, L. I., and Tucker, N. Y., be permitted to work with Germany from censorship, thereby placing Germany on equality with England and France, which are using their cables without restrictions for trans-Atlantic correspondence.

## Ask Fair Attitude Toward Germany

WASHINGTON, Aug. 12.—Resolutions appealing to the American press to adopt a fair and just attitude toward Germany in the European war were adopted at a mass meeting of German-Americans here last night.

Representative Bartholdt of Missouri in an address charged England with being not only responsible for the present conflict, but also for the hostile attitude of the American press toward Germany. He declared that to hold the German emperor responsible for the war would be to fairly history. All of the speakers vigorously denounced the attitude of the American press.

## GERMANS PLEDGE AID TO KAISER

Will Raise Thousands of Dollars for Relief Work in Fatherland.

SAN FRANCISCO, Aug. 12.—Plans to keep the public informed on the motives of Germany in engaging in war were made at a meeting at the German House of the German Relief Society for the Wounded, Widows and Orphans.

Declaring that the ideals kept in mind by the Kaiser in grasping the sword were not being reflected in the dispatches coming from nations unfriendly to Germany, speakers dwelt on the necessity for a publicity committee that would keep the reading public of the Pacific coast on its guard against calumnies directed against the Kaiser.

Pledges of financial support amounting to thousands of dollars for the relief work to be undertaken by the society were made at the meeting.

"We are not only Germans," said Dr. Henry Krautmann. "We are Americans as well, and we want to keep the public here informed about what is going on in the Fatherland."

"The American public in time will realize that it was not the mailed fist of the Kaiser that brought about this war, but that his policy was dictated by the broadest and most humanitarian spirit."

Dr. Krautmann said he believed that at least \$250,000 would be subscribed to the relief work begun by the society.

## WOMEN PLEDGE AID.

Women who attended the meeting added to the pledges made of financial support, one of them saying that the society she represented would guarantee \$500 a month to the work. The Krieger Verein pledged \$200, and the San Francisco Schutzen Verein \$1000.

George Volkman told how \$23000 had been subscribed for relief work in two hours Monday morning, and other speakers outlined how the campaign of the society was to be extended through California.

John Hermann read a call sent out by the National German Relief Society from Baltimore, and told how plans were being made throughout the United States to meet calamities uttered against Germany. The society for the wounded, widows and orphans, he said, would be able to undertake this work on the Pacific Coast, and it would be necessary to have other organizations for this purpose.

Ernest George, teacher of languages, referred to the article from the pen of Professor Hugo Munsterberg, published in the Examiner last Sunday.

"We want to see more articles similar to this given publicity," said George. "Professor Munsterberg performed a great service for Germany in writing as he did."

Max Schmidt presided at the meeting and Walter Leary was secretary. Dr. Henry Krautmann was appointed chairman of the press committee, George Volkman president of the finance committee, and Henry Fickhoff chairman of the committee on organization. Each chairman will select the committee to work in conjunction with him.

EDINBURGH, Aug. 12.—The Scotsman today prints the story of an eye witness of the naval battle between British cruisers and German submarine in which the submarine was sunk.

"The cruiser squadron on Sunday," the story runs, "suddenly became aware of the approach of the submarine flotilla. The enemy was submerged, only the periscopes showing above the surface of the water. The attitude of the British in the face of this attack was cool and the enemy was utterly misled when suddenly the cruiser Birmingham, steaming at

## Advance Fall Opening

WITH MORE THAN CUSTOMARY satisfaction we announce that the ADVANCE SHOWING of the NEW FALL MODELS in every department will begin tomorrow.

A GLIMPSE AT OUR SHOW WINDOWS will give you some idea of the excellence and beauty of the goods, representing only the best makers of the country in their respective lines.

YOU ARE CORDIALLY INVITED TO visit the store during these days of advance displays and inspect what is really a revelation in clothes for men, women and children.

## EXPERT GUNNERY SINKS SUBMARINE

Eye Witness Tells of Battle Between English and German Ships.

EDINBURGH, Aug. 12.—The Scotsman today prints the story of an eye witness of the naval battle between British cruisers and German submarine in which the submarine was sunk.

"The cruiser squadron on Sunday," the story runs, "suddenly became aware of the approach of the submarine flotilla. The enemy was submerged, only the periscopes showing above the surface of the water. The attitude of the British in the face of this attack was cool and the enemy was utterly misled when suddenly the cruiser Birmingham, steaming at

full speed, fired the first shot. This shot was carefully aimed, not at the submerged body of a submarine, but at the thin line of the periscope.

The gunnery was superbly accurate and shattered the periscope. Thereupon the submarine, now a blinded thing, rushed along under the water in immediate collision with the cruisers above.

"The sightless submarine was then forced to come to the surface, whereupon the Birmingham's gunner fired the second shot of the fight. This shot struck at the base of the conning tower, ripping the whole of the upper structure clean and the U-15 sank like a stone."

## WAR TO KEEP COIN IN UNITED STATES, REPORT

the European war will have the effect of keeping in the United States between \$200,000,000 and \$300,000,000 and that the greater part of this vast sum will be spent in California by visitors to the Panama-Pacific Exposition, is the belief of Passenger Traffic Manager Charles S. Fox of the Southern Pacific Company. Fox has just returned from a business trip because of the European war,

East, during which time he visited all the important cities.

"The war is going to stimulate the 'See America First' movement," said he yesterday. "Americans visit Europe every year and spend fortunes. They never take the trouble to see what their own country has to offer. Next year they will stay at home, and when they see the scenic wonders and outing spots of California they will come back again and again."

"I believe that between \$200,000,000 and \$300,000,000 will be kept at home on account of the war, and I also believe that the natural outlet for this sum will be the exposition. In this connection I talked with railroad agents in all the cities I visited. These men are in close contact with prospects for business this year, and I cannot recall one who did not hold the indications for tremendous travel promised next year to be exceptionally promising."

**MORE COIN ORDERED.**  
TONGVAH, Nev., August 12.—An order on mints in San Francisco, Denver and Philadelphia to purchase \$1,175,000 ounces of silver at \$2 cents is the first move of the United States government toward averting the depreciation of the metal just returned from a business trip because of the European war.

## DIPLOMATS ARE DELAYED BY WAR

Unable to Reach Posts While  
Refugees Abroad Cannot  
Leave for America.

WASHINGTON, Aug. 12.—Newly appointed diplomats are experiencing considerable difficulty in reaching their posts abroad on account of the European war.

William G. Sharp, the new Ambassador to France, is still in Washington awaiting an opportunity to get to Paris. Pending his arrival Herriot will continue cause of his close personal acquaintance with the French officials he will be requested to remain in Paris in the service of the State Department after the arrival of Sharp, while the latter finishes his journey with the latter demands of the post at this critical time.

George T. Marre, newly appointed American Ambassador to Russia, is also marooned in his own country as a result of the war. He and Mrs. Marre, who are in the city of New York, are waiting for the Russian Ambassador to the United States to arrive. The Russian Ambassador is expected to arrive in New York in a few days. The Russian Ambassador is expected to arrive in New York in a few days. The Russian Ambassador is expected to arrive in New York in a few days.

It is expected that American diplomatic and consular officers everywhere, save to the few neutral countries, are going to be very busy in the coming months. It is expected that American diplomatic and consular officers everywhere, save to the few neutral countries, are going to be very busy in the coming months. It is expected that American diplomatic and consular officers everywhere, save to the few neutral countries, are going to be very busy in the coming months.

The United States naval auxiliary Vulcan, just in from Vera Cruz, is preparing to get away for Europe with supplies for the American cruisers Tennessee and North Carolina, recently dispatched to the Caribbean Sea.

Cherbourg, France, probably will be the first port touched by the American transatlantic liners. The American transatlantic liners are expected to arrive in Cherbourg in a few days.

Dispatches from consular representatives at Christiania, Norway and Havre, France, said, it was understood at those places, that Great Britain was excluding all non-British subjects, regardless of their nationality.

BRYAN MAKES OBJECTION.  
Secretary Bryan in his cablegram to Ambassador Page emphasized the opinion that national or friendly powers should not be denied permission to land in England, particularly at this time.

Such a prohibition would seriously complicate the plans of the Washington Government for the relief of Americans stranded abroad on account of the European war. Plans for the relief of Americans stranded abroad on account of the European war.

Two American steam yachts were being fitted out in New York for the Atlantic trips into the war zone to rescue parties of Americans stranded abroad. One of the yachts, owned by Thomas F. Cole, the other the Columbia, owned by J. H. Lader, a wealthy New York leather merchant.

The Alvin, her skipper said yesterday, will go to Genoa, Italy, to get A. W. Mellon, a prominent Pittsburgh banker, and seventeen other Americans who have been vainly awaiting transportation home from that port. She is a vessel of 825 tons, has a speed of 14 knots and will be the fastest of the fleet.

The British steamer Augusta, from Glasgow and 117 storage passengers arrived at New York today. She steamed every night with lights out, but saw no hostile war vessels on the voyage.

British cruiser outside of Anula, Cuba. Captain Pinkett of the Danube said that the ship was in the harbor when he sailed and that all news was censored. Four naval reservists were taken from the Danube's engine room just before sailing and four other men, not engineers, were substituted. The four officers who were kept at Kingston and placed aboard the first British war vessel that enters the port.

## WAR HAPPENINGS

Sveaborg, the great Russian fortress in Finland, awaits a bombardment or a battle, as the commander has ordered all civilians to leave there, and also Helsinki.

Paris reports Montenegro troops occupying Tarabosch, overlooking Scutari, Albania, where severe fighting between Montenegrins and Turks occurred during the Balkan war.

The German commander at Metz denies the loss of 20,000 in his effort to take the forts there. He says they will be taken without the loss of a man as soon as German heavy artillery arrives. He asserts that "the Belgian force is numerically superior to ours." He intimates that the assaults were stopped by the emperor's orders to avoid needless sacrifice of life.

German troops reported to have covered half the distance between Liege and Brussels.

Considerable sums of English gold are to be deposited in Ottawa, without running the risk of shipping money across the Atlantic.

## DENY SHIPPING GOLD TO CANADA

Entire Ten Millions From  
Kronprinzessin Cecile Not  
to Be Sent.

NEW YORK, Aug. 12.—It is denied in financial circles here that the entire amount of the \$10,000,000 and more gold taken from the Kronprinzessin Cecile is to be sent to Ottawa.

J. P. Morgan & Co., it is understood, have recently consigned \$1,000,000 gold to the Canadian capital, but others bankers interested in the Kronprinzessin Cecile shipment recently returned here expressed the opinion that only a small part of that sum will be shipped across the border.

There were further indications in New York today that any movement looking to large shipments of gold to Canada, whether for the bank of England or for any other purpose, will be unpopular in banking circles. New York bankers deem it of the highest importance that gold be held here regardless of foreign obligations. There are other ways, it was pointed out, of meeting our debts in London, and these, it was argued, should be used.

Money rates and foreign exchange were notably easier today, but actually without material change. All time rates continued on a 5 to 8 percent basis, with some offerings at the lower figure.

In confirmation of the report, the shipment of \$1,000,000 gold to Ottawa, J. P. Morgan & Co., said the sum had been intended for shipments to the Bank of England before the beginning of the war. It was diverted to Ottawa, because it was deemed expedient to risk such a large sum of money at this time.

J. P. Morgan & Co. announced today that \$6,000,000 additional French gold had been deposited with the firm's Paris house.

TO RECEIVE DEPOSITS.  
WASHINGTON, Aug. 12.—For the benefit of Americans in Brazilian houses doing business in Argentina, who have heretofore forwarded money through European exchanges, Minister Naon of Argentina was authorized today by his government, as the result of a special law just passed by Congress, to receive deposits of gold and to notify his government by cable of their receipt. Money so deposited will be paid to those authorized to receive it.

WINS IN OKLAHOMA PRIMARY.  
OKLAHOMA CITY, Aug. 12.—Complete official returns from all the 77 counties in the state in the recent primary give B. L. Williams a plurality of 1700 votes for governor over J. B. A. Robertson, his nearest rival. Williams has conceded the nomination of Robertson. Robertson has filed notice of contest in five counties because of alleged irregularities, but it was stated today the contest probably will be dropped.

SIGNS WITH BUFFALO FEDS.  
CHICAGO, Aug. 12.—Russell Blackburn, second baseman for the Chicago Americans, has signed to play with the Buffalo Federal League team next season, it was learned today.

land, expecting there to board ships for home.

It was suggested last night that any order issued by the British authorities in all probability would not be enforced against neutral foreigners desiring to land temporarily to await the sailing of a vessel for their own country.

## FRENCH VERSION OF ENGAGEMENT

Germans Repulsed With Heavy  
Loss, and Driven Back  
Across Border.

MONTREAL, Aug. 12.—A cablegram from Paris to the Montreal Star gives the following account of an engagement between the French and Germans:

"The French war office issued an official announcement today stating that the troops of the republic have been victorious in engagements with the Germans."

"It was further officially stated that all the German soldiers who penetrated into the departments of the Meuse and Meurthe-et-Moselle have been driven back across the border."

"At Mangelennes, northeast of place, in which the French claim to have repulsed the Germans with heavy loss. Six guns, three heavy pieces of artillery and three rapid-fire guns also fell into the hands of the soldiers of the republic. A battery of German artillery was disabled."

"During the early stages of the battle the Germans fought with such fierceness and stubbornness that the French lines were on the point of wavering, then reserves were thrown forward and supported the French front. This turned the tide, according to the French war office dispatches, and the French troops then began a counter attack."

## House Confers Upon Wilson Shipping Bill

WASHINGTON, Aug. 12.—The shipping bill to grant American register to foreign built ships was sent to conference by the House today after Senate amendments had been disagreed to. The House, in view of the importance of the bill, named Democratic Leader Underwood and Republican Leader Mann as conference managers in addition to the regular conferees.

A bill to appropriate \$400,000 to buy ocean going ships to carry American troops was introduced by Representative Moss of West Virginia. They would be auxiliary vessels of the navy.

## ASKS GOVERNMENT TO SHOW CENSORSHIP LAW

NEW YORK, Aug. 12.—The Marconi Wireless Telegraph Company of America addressed today a protest to the secretary of the navy against the government's refusal to show the censorship law under which the company is operating.

The Marconi Company's protest, signed by John W. Griggs, says: "We are aware of no statute of the United States or of any treaty or rule of international law which justifies the intervention of a government censor or the stoppage of the company in sending messages in the ordinary way."

## PROTEST AGAINST U. S. SHIPMENTS TO CANADA

DETROIT, Aug. 12.—Adolph Neider, secretary of the local German American City League, has sent a message to President Wilson, protesting against alleged violation of the neutrality laws by the shipments of coal from the United States to Germany by way of Port Huron. His message follows:

"My attention having been called to the shipment of coal from this country to Canada over the Grand Trunk Railroad via Port Huron, Mich., I as secretary and in behalf of the local German American City League composed of 13,000 American citizens of German descent regard it as our duty to vigorously protest against and call your attention to these apparent violations of neutrality as proclaimed by our government."

## GERMAN TROOPS MASSES NEAR LIEGE IS REPORT

LONDON, (7:45 p. m.) Aug. 12.—The official press bureau of the British War Office says today:

"Of the 25 German army corps the bulk has been located and it is evident that the mass of German troops is concentrated between Liege and Luxembourg."

"The number of German troops known to be on the western side of that country proves that the eastern theater of war, Russia, is of secondary importance. Germany is concerned, is comparatively lightly guarded, and is in a position to concentrate her forces."

FOOD PRICES BEFORE HOUSE.  
WASHINGTON, Aug. 12.—Food prices increased in some instances to the extent of 100 percent because of the European war was the subject of another cost of living resolution introduced today by Representative Howard of Georgia. The resolution calls on Secretary Baughman for statistics of foods held in cold storage, any attempt to corner in foodstuffs, and the differences between the prices paid to the producer and exacted from the consumer. Attorney General McReynolds was called upon for information as to what investigations his department has been making and whether offenses have been discovered which are punishable under the antitrust laws.

BELGIANS KILLED.  
TIRLEMONT, Belgium, via London, Aug. 12.—Fighting occurred near here Tuesday between German and Belgian cavalry. Seven Belgians were killed and 100 wounded.

## WOMAN SOUGHT DEATH; IS MYSTERY

Young Man Calls, Identifies  
Her as Wife, but Conceals  
Name.

Further mystery was added to the attempted suicide in the Hotel last evening of a woman who gave her name as Mrs. J. S. Dunlap, and who claims to have come recently from Salem, Oregon, when this afternoon a man representing himself as her husband, called at the Emergency Hospital, identified her, wept over her as she lay on a cot, signed for her jewelry under the name of Dunlap and then declared to Inspector St. Clair that his wife had not his name.

The woman is having a hysterical attack and death as a result of drinking a quantity of poison.

Early this afternoon Dr. E. E. Dowdle at the hospital received a telephone call from a man who asked the description of the mysterious woman patient. He was accompanied by an older man who refused to give any information about the patient.

Mrs. Dunlap went to the hotel yesterday morning and registered, giving her address as Salem. Several hours later she was found in convulsions with an empty bottle of iodine at her side. The police took charge of her effects which included a number of letters addressed to her at the hotel.

The woman's husband, who was not at the hospital, was an attorney but not of Oakland or San Francisco. It is believed that he has been searching for her and only came to Oakland recently to endeavor to find her, the quest having ended at her bedside at the Emergency Hospital. She has a very slight chance of recovery.

GERMANS MAKE ATTACK.  
PARIS, Aug. 12.—The French troops along the entire front are in contact with the Germans. At Mangelennes, northeast of Verdun, the Germans attacked the French on Monday evening. The French, reinforced by reserves, then took the offensive and repulsed the Germans with considerable losses. A German battery was destroyed by the French artillery fire and another was captured, with three gassing guns and ammunition.

A regiment of German cavalry suffered seriously. Near Moncel a German battalion with artillery was repulsed. The German losses are said to have been heavy.

The village of Lagarde, in German territory, was taken by the French at the point of the bayonet. German forces appeared at Longev and demanded the surrender of the town, which was refused.

## GUARD CANADIAN PLANT.

NAGARA FALLS, Ont., Aug. 12.—A military guard was placed today at the Canadian power plant here and at important stations in the system which supplies light and power to forty Ontario towns and cities.

## 30-DAY MORATORIUM.

RIO JANEIRO, Aug. 12.—The chamber yesterday approved the declaration of a moratorium for thirty days. It may be continued, if necessary, for four months.

## WORKMAN KILLED BY FALL FROM SKYSCRAPER

SAN FRANCISCO, Aug. 12.—A window cleaner employed by Oberli & Co. of 422 Bush street, fell twelve stories to his death from the top of the Herald building this afternoon. The man, whose name has not been learned, was cleaning windows on the thirteenth story. He had swung himself outside and was held by a hook. In some manner the apparatus broke and he fell to the stone floor of the light well at the second story.

PRIEST ASKS COMMISSION.  
LONDON, Aug. 12.—Application for the restoration of his commission in the Russian army has been made by Father Bismarck, a former officer of the guards, who is now superior of a monastery at Mount Athos, in the peninsula of Saloniki. Father Bismarck proposes remaining in religious orders and in imitation of crusading monks at the time of the Tartar invasion of the thirteenth and fourteenth centuries, will head his troops in his uniform covered with his cow.

## SUICIDE IDENTIFIED.

SAN FRANCISCO, Aug. 12.—The man found on the Oakland beach early yesterday morning was identified this afternoon as M. E. Kemper of 1531 Dolores street. Kemper was for years starter for the old Market street railway company at the turntable at Ellis and Market streets. He had been despondent for some time and made a previous attempt at suicide by turning on the gas. Remained in a motorman for the United Railways.

AT LAKE TAHOE.  
Mrs. W. S. Rheem and Mrs. J. M. Alameda are at Lake Tahoe, where they will spend several days at the Taver.

## REGISTRATION LAW MUST BE AMENDED

No Prosecution for Frauds Because of Hopelessness, Says Hynes.

Prosecution will not result from the investigation of District Attorney Hynes into the methods used by registration deputies in signing up names of voters on affidavits during the recent rivalry between the Republican and Progressive parties. The District Attorney made his report in the matter today and declared that while prosecutions could not possibly result under the circumstances there had been many instances of fraud and coercion, while in others falsifying and misrepresentation were resorted to.

"Successful prosecutions would have been dubious," said District Attorney Hynes. "Under the circumstances I could not see where it would have even been attempted."

Before the Grand Jury. So far as I can see now the whole matter is practically concluded. New legislation could prevent such a situation again arising. That would be the next step to take."

The report of the District Attorney covering the case is as follows:

"The task of investigating alleged registration irregularities has engaged my attention, and that of three of my deputies, for more than two weeks. Out of the total registration of over one hundred and thirty thousand, many thousands of individual affidavits have been examined, particular attention being given to those showing changes or erasures, and the signers of many affidavits have been interviewed by me."

VOTERS' WISHES DISREGARDED.  
"This investigation has disclosed a course of conduct on the part of certain registration deputies that is most reprehensible, and I find that this conduct has been indulged in by registration deputies affiliated with both the Progressive and Republican parties. In some instances, the conduct amounted to almost coercion, while in others, falsifying and misrepresentation were resorted to. While in no case have I found any state of fact which would warrant the institution of criminal proceedings, I have found that in many instances this conduct, which has been little short of fraudulent, has resulted in registration contrary to the real wishes of the voter. All this has been for the purpose of securing party registrations corresponding to the political ideas of the particular registration deputy securing the affidavit."

"These acts are the result, in my opinion, of a faulty registration system, which permits private individuals, or candidates for office, or the adherents of a political party, to give to registration deputies compensation from a private fund, this remuneration being dependent upon their securing registrations of a particular kind. This is wrong, and the law should be amended so that a requirement of the present situation cannot present itself."

"W. H. L. HYNES,  
District Attorney of Alameda County."

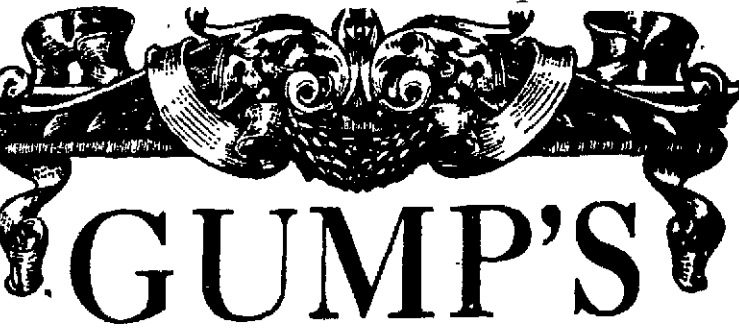

## SHORT WEDDED BLISS.

Married in November and deserted in December was the experience of Mrs. Pearl G. Arreiter, who today filed suit for divorce against Theodore Arreiter, setting forth allegations to that effect. The ceremony was performed in 1912. Plaintiff asks for alimony.

Annie J. Brain commenced suit against William Brain, alleging cruelty.

## TURKISH MESSAGES CENSORED.

NEW YORK, Aug. 12.—The telegraph companies announced today that messages for delivery in Turkey must be prepared in French and no other language. The instructions to this effect were received at the European terminals of the Atlantic cables.

## NEW HAVEN RAILROAD YIELDS TO GOVERNMENT

NEW YORK, Aug. 12.—An agreement has been reached between the United States government and the New Haven & Hartford Railroad Company for the peaceful dissolution of the New Haven system, according to an announcement after a meeting of the road's directors here late yesterday.

President Hustis resigned as a director of the New Haven, as on Saturday he is to become president of the Boston & Maine.

Chairman Howard Elliott was elected president of the New Haven. The president of John L. Billard was accredited. The statement issued after the directors' meeting said:

"A meeting of the board of directors of the New York, New Haven & Hartford Railroad Company was held this afternoon at the Grand Central terminal. After the meeting President Hustis said that, in pursuance of the hope expressed in his statement of July 21 that a way might still be found to accomplish the peaceful dissolution of the properties, an agreement had been reached."

## WOMEN TAKE PURSE.

SAN FRANCISCO, Aug. 12.—Peter S. Siegel of 1150 Hyde street was the victim of three women pickpockets, who relieved him of his purse on an O'Farrell street car this morning. The pocketbook contained \$42 and as soon as Siegel missed it he was convinced that the women were responsible and so informed the police, furnishing a fair description of them.

## BASEBALL MAGNATES SIT IN WAR COUNCIL

NEW YORK, Aug. 12.—Those National League club owners who are in the East assembled here yesterday at the call of President Tener for an informal meeting. It was said that the club owners talked about the general baseball situation, such as players' contracts, the Federal League and the effect of the European war on attendance at games.

## U. S. BUYS SUGAR.

WASHINGTON, Aug. 12.—The treasury department today announced it had bought 1,175,000 ounces of sugar at 12 cents an ounce, with the avowed purpose of enabling both tinners and smelters to continue operations during the week in the export movement.

## SAN JOSE CHEERS REP. KNOWLAND

## Congressman Deals With Merchant Marine at Garden City

Before a magnificent audience in San Jose last night, Congressman Joseph R. Knowland, Republican candidate for the United States Senate, discussed the issues of the campaign, being repeatedly interrupted by intense cheering and applause on the part of his auditors. Mr. Knowland laid stress on the present need for a merchant marine in the situation confronting the world and declared he had always advocated an American merchant marine. "Never before," said Mr. Knowland, "has the necessity for such been as great as at this time. With the nations in Europe engaged in a titanic struggle we are without ships to take advantage of a supreme opportunity, and we are compelled to resort to the expedient of enacting legislation to permit foreign built vessels to obtain American register."

"Length of service in Congress is appreciated by the Eastern and Southern States. At the head of the most important legislative body in both the Senate and House, are men who had

respective states. One-third the present membership of the Senate first saw service in the House of Representatives. It requires a term or two for a new member to familiarize himself with legislative procedure, to become acquainted with the heads of the various bureaus of the government and to gain an intimate acquaintance with the members of both houses. Influence and position come only with service."

"In seeking election as United States Senator from California I am depending on my record of seventeen years of public service. Of this: Seven years were spent in both branches of the California state legislature and ten years in the House of Representatives. My record is a record cannot be assailed by rival parties."

"Among those present were James P. Montgomery, J. C. Downey, T. F. Marshall, E. L. Ormsby, Daniel L. Hayes, Mrs. Carrie L. Hoyt of Piedmont, Mrs. James P. Montgomery, Mrs. John E. Ormsby, Mrs. Mary E. Fraser of Berkeley, Mr. A. McInnis, Dr. William O'Rourke, Daniel Crowley, T. J. Powers of Irvington, Dennis McCarthy, Bartley Barry, Dr. H. F. Desautel, J. C. Bullock of Piedmont, Seg. George W. Ralston of Berkeley, Mr. Bachrach and Mr. and Mrs. H. W. Brunk of Berkeley."

Senator John B. Curtin, who has been down in the lower San Joaquin valley for some time, wires that he is going to carry Kern and Tulare counties and run Charles King of Kings a close race in his home district. Mr. Curtin is speaking in Madera and Merced counties today and will arrive in the bay city region tomorrow.

W. C. Ralston, candidate for Governor on the Republican ticket, addressed two meetings in Santa Clara county yesterday, one at Santa Clara and one in San Jose, having good sized audiences at both.

There is some business at the county clerk's office in the matter of figuring out ballots. The cross-crossing of senatorial, assembly and supervisorial districts and the township lines therein, necessitates the printing of 244 individual ballots in this county. There are eight precincts which will have to separate ballots in small quantities in order to provide for a limited number of voters from 290 to 250.

The Republicans of precinct 105 to 111 of the Forty-first district meet at College and Shafter and elected the following officers: President, H. C. Wagner; Secretary, J. J. Lewis; Treasurer, H. C. Gray; executive committee, P. C. Mori, R. G. Gung, J. Libschner, James Thurston and C. B. Strong. The club endorsed John A. Hatton for member of the assembly and J. R. Knowland for United States Senator.

C. D. Swan of Modesto, candidate for the Republican nomination for State Treasurer; Dr. George H. Derrick, Republican candidate for Congress; Charles A. Strong, Republican candidate for Assemblyman; the Thirty-seventh district; Henry C. Patterson, candidate for county superintendent of schools; and Dr. O. D. Baldwin, candidate for coroner, will be the speakers at a Republican rally to be held at Miss Horton's assembly hall, Palm and Perkins streets, on next Friday night. Voters are asked to attend early as the meeting will open promptly at 8 p. m.

George E. Gross, city auditor and assessor of Oakland, candidate for the office of county clerk, was among the speakers at a neighborhood meeting held last night at the home of Mrs. Hattie B. Lubin, 3214 Elston avenue, and tomorrow night he will address a meeting at the home of Mr. Hayes, 3521 Emerson street. Mr. Gross is receiving so many invitations to address the voters of the county that he finds it impossible to fill all of them personally and is having his friends substitute for him where he cannot appear on account of conflicting dates. Latest reports from the interior of the county are to the effect that Mr. Gross is gaining ground rapidly and has received assurances from his supporters of the annexed district of Oakland that that section will roll up a large vote for him at the primaries.

Philip M. Walsh, candidate for representative from the Sixth Congressional district on the Republican ticket, to succeed Joseph R. Knowland, was one of the speakers at a large neighborhood meeting last night at the residence of Mrs. Hattie B. Lubin, 3214 Elston avenue, Fruitvale. He discussed the tariff and other vital issues. Mr. Walsh is in receipt of many letters daily from industrial and commercial interests of this district commending him for the strong presentation of important questions he has been making since the beginning of his primary campaign and giving him assurances of support. He has many speaking engagements scheduled and invitations continue to pour in upon him from all over the district, which includes the whole of Alameda county, to address various clubs and political organizations. Tomorrow afternoon at 3 o'clock he will speak before the Berkeley Center of the California Civic League in Unity Hall, Berkeley.

Mr. Charles A. Strong, candidate for re-election as coroner, is making a vigorous campaign. He spoke Monday evening in a large audience of the Irish-American League and at a meeting in Cameron Hall on Thirteenth avenue. Last night he addressed meetings in Upper Fruitvale hall and at the Laurel School. He also spoke at a house meeting held at the home of Mr. and Mrs. George

McClelland on Seventy-third avenue. The Oakland Shipwrights Association No. 875, at its last meeting endorsed his candidacy.

Frank A. Leach, formerly superintendent of the mint at San Francisco, has endorsed the candidacy of M. K. Kelly for county treasurer in a statement made public today in which he commends Mr. Kelly for his ability and honesty and the manner in which he has conducted the affairs of the office.

County Auditor Garrison has been endorsed by the Irish-American League, the Material Teamsters' Union, the Democratic Club of Berkeley, the West Sixteenth Street Improvement Club, the East Oakland Young Men's Progressive Club, the Young Men's Progressive Club, the several colored organizations and others. Garrison has been speaking at several and six meetings nightly in response to invitations.

be the principal speaker at a non-partisan meeting to be held on Monday evening, August 17, at Red Men's Hall, Elmhurst. The meeting will be the only one of the primary campaign in the district.

Congressman Joseph R. Knowland was endorsed for United States Senator and Francis V. Keessling for Governor last night by the Hamilton Club, meeting at Mrs. Lucy Barker's home.

Charles W. Haver's campaign for supervisor in the Oakland annex was helped along yesterday evening when the Melrose Extension Supervisor Club was formed. Mrs. M. McClelland's home 2442 Bedford avenue, Melrose, and undertook precinct work.

Haver spoke yesterday at the Laurel school, being endorsed by the meeting, which drew from the Llesse avenue neighborhood. A speech was made by him at Upper Fruitvale hall before the Fruitvale Women's Improvement Club, which endorsed his candidacy.

Attorney J. A. Elliston, who is seeking the Progressive nomination for Congress, spoke at several factories in West Berkeley yesterday and at three meetings last night.

The Young Republican Club of Alameda was organized on Monday night, August 10, 1914, having a membership of 365, and the following officers were elected:

Chairman, H. D. Perry, vice-chairman, E. P. Hunsley, secretary, R. Bergendahl; sergeant-at-arms, J. W. Howard.

The executive committee consists of E. D. Hensley, D. R. McArthur and R. Bergendahl. The following were endorsed by the club: United States Senator, J. R. Knowland; County Clerk, John P. Cook; Supervisor, W. E. Bridges; Constable, Fred Cramer; State Treasurer, W. C. Ralston. The endorsement of other candidates was postponed until the next regular meeting which will be held on August 17, 1914, in Mutual Hall.

Attorney W. A. Andrews and Alexander Murdoch of Oakland represented C. W. Gibson and H. D. W. Gibson, creditors, representing the Crescent Investment Company, which instituted the involuntary bankruptcy proceedings.

The strange disappearance and reported murder of Anna Jensen on Mount Tamalpais several years ago was explained yesterday when the young woman was found living in Oakland, her name being now Mrs. Henry E. Fleg. She lives at 1424 Twenty-third avenue, and until informed of her existence she was unaware of the sensation her disappearance had created, as she was living at the time in a mining camp in the high Sierra, and saw no papers.

Charles Fierling of Fresno, who was raised in boyhood in the same home as Mrs. Fleg, learned yesterday that she was said to be living in Oakland. He found her and found that she had married and was the mother of a year-old child.

Scraps of clothing and bones found in the brush on the trails leading up Mt. Tamalpais, and identified. It was declared as the clothing of Anna Jensen, the theory that she had perished on the sides of the mountain. The mystery as to whose clothing and bones were found on Mount Tamalpais will probably never be solved.

James Hamilton alleged to have held back some of the collection he made while in the employ of M. L. Snyder a butcher pleaded guilty to the charges of misdeemeanor and embezzlement. Police Judge Smith released him on his own recognizance, referring him to Probation Officer Tyson.

John Doe Hale alleged to have defrauded Mrs. Margaret Cole of \$50 rent was given one week in which to pay his debt. The defendant was alleged to have departed after other reprehensible, leaving no security, but when put on the stand he denied the charge and was released on his own recognizance.

Harry Hawkins an old offender was given six months on the charge of petty larceny. Hawkins pleaded guilty to the charge of stealing a number of articles valued at \$40.

WASHINGTON, Aug. 12.—Secretary Bryan's twenty peace treaties which President Wilson has urged for immediate ratification, were taken up by the Senate today in executive session.

CAPTURE ALLEGED FORGER. Edward S. Fawcett, who is said to be wanted on charges of forgery by the San Francisco and San Diego police departments, was captured this morning by inspectors Neils, Emlich and Hodgekins at Fourteenth and Broadway. He was probably turned over to the San Francisco police on a warrant from that city.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I advised the boys when they enlisted for the Spanish War to take Chamberlain's Colic, Cholera and Diarrhoea Remedy with them, without interrupting their task of putting up grapes, relates how he 'spelled down' every body in town until Miss Lita Johnson came along. Other folk, Mrs. Phillips relates, would say it was no use trying against him."

## EXCHANGE WITH LAGRANGE WILL

## JOIN CELEBRATION

## Merchants' Organization to Aid Festivity Marking Completion of City Hall.

The Merchants' Exchange at a meeting last night decided to co-operate with other organizations in celebrating the completion of the new City Hall.

A committee consisting of Patrick Kisch, A. H. Schlueter and Wilbur Walker was appointed to confer with Mayor Mott and the City Council in regard to the advisability of arranging for the proposed celebration.

The connecting of Broadway with the Tunnel road was discussed by the Exchange. It was pointed out that at present traffic by the Tunnel road into Oakland had to come around by way of Claremont while by opening up Broadway to the Tunnel road, over a mile would be saved. Objection to this plan has been made by the property owners on the land through which it is proposed to extend Broadway. The

will come before the City Council within a few days to the Tunnel and Highway committee.

The communication was received from the National Rivers and Harbors Congress in Washington asking the Exchange to lend its support in having the Rivers and Harbors Bill now pending passed without delay. It was stated in the communication that for various reasons the passing of this bill had been delayed.

result in great injury to the partially completed river and harbor projects. The estimates of the army engineers for these projects, it was pointed out, only covered what would probably be expended during the fiscal year, while to provide for continuous work on these projects already under way the pending bill would have to be passed without further delay.

The Exchange decided to ask Congress to take steps to have the bill passed as soon as possible.

It was agreed to co-operate with the Chamber of Commerce in its request to the army engineers for assistance and advice in the building of improved bridges on the Oakland estuary in place of the old drawbridges.

A committee was appointed to investigate what is to be done in connection with the rebuilding of the wooden piers at Eighteenth street and San Pablo avenue, damaged by fire. As this section is within the fire lines, the Exchange wants to know whether it will not be necessary to erect buildings of other material than wood to replace those burned.

## REALTY SYNDICATE OPPOSES BANKRUPTCY

SAN FRANCISCO, Aug. 12.—"Throwing the Realty Syndicate into bankruptcy should be a crime," declared Judge Maurice T. Dooling from the bench. The question of the petition of involuntary bankruptcy proceedings was argued in the United States district court yesterday. Peter F. Dunne represented the Realty Syndicate and F. M. Smith. He said that the corporation had assets of \$12,000,000 and liabilities amounting to about \$8,000,000.

"When an enterprise lands on the rocks of bankruptcy," said Judge Dooling, "it has been my experience that marshalling fees, attorneys' fees and other expenses eat up the assets and there is nothing left for the creditors. I will take the matter under advisement, but I feel that it is a big enterprise and throwing it into bankruptcy should be avoided if possible."

Attorneys W. A. Andrews and Alexander Murdoch of Oakland represented C. W. Gibson and H. D. W. Gibson, creditors, representing the Crescent Investment Company, which instituted the involuntary bankruptcy proceedings.

## REPORTED MURDERED, SHE REAPPEARS AFTER YEARS

The strange disappearance and reported murder of Anna Jensen on Mount Tamalpais several years ago was explained yesterday when the young woman was found living in Oakland, her name being now Mrs. Henry E. Fleg. She lives at 1424 Twenty-third avenue, and until informed of her existence she was unaware of the sensation her disappearance had created, as she was living at the time in a mining camp in the high Sierra, and saw no papers.

Charles Fierling of Fresno, who was raised in boyhood in the same home as Mrs. Fleg, learned yesterday that she was said to be living in Oakland. He found her and found that she had married and was the mother of a year-old child.

Scraps of clothing and bones found in the brush on the trails leading up Mt. Tamalpais, and identified. It was declared as the clothing of Anna Jensen, the theory that she had perished on the sides of the mountain. The mystery as to whose clothing and bones were found on Mount Tamalpais will probably never be solved.

## OFFENDERS RELEASED ON OWN RECOGNIZANCE

James Hamilton alleged to have held back some of the collection he made while in the employ of M. L. Snyder a butcher pleaded guilty to the charges of misdeemeanor and embezzlement. Police Judge Smith released him on his own recognizance, referring him to Probation Officer Tyson.

John Doe Hale alleged to have defrauded Mrs. Margaret Cole of \$50 rent was given one week in which to pay his debt. The defendant was alleged to have departed after other reprehensible, leaving no security, but when put on the stand he denied the charge and was released on his own recognizance.

Harry Hawkins an old offender was given six months on the charge of petty larceny. Hawkins pleaded guilty to the charge of stealing a number of articles valued at \$40.

## SENATE TO PASS UPON BRYAN PEACE TREATIES

WASHINGTON, Aug. 12.—Secretary Bryan's twenty peace treaties which President Wilson has urged for immediate ratification, were taken up by the Senate today in executive session.

CAPTURE ALLEGED FORGER. Edward S. Fawcett, who is said to be wanted on charges of forgery by the San Francisco and San Diego police departments, was captured this morning by inspectors Neils, Emlich and Hodgekins at Fourteenth and Broadway. He was probably turned over to the San Francisco police on a warrant from that city.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

## Three Good Men for Superior Judgeships

Three good men are running for re-election in Alameda County in the persons of Superior Judges T. W. Harris, William H. Waste and Everett J. Brown, who are uncontested except by the Socialist party, which has no hope of winning. Judge Harris and Judge Waste have been twice re-elected by majorities overwhelming in character, while Judge Brown, who was appointed to the bench in 1908 to fill the vacancy caused by the selection of Judge Henry A. Melvin to be an associate justice of the Supreme Court, was endorsed by the citizens of this county at the November election following his appointment in September. Judge Harris and Judge Waste were both appointed in the first instance to fill vacancies.

All are men of a high order of ability. Judge Harris was admitted to the bar in 1897 and engaged in the practice of law until 1905, when he was appointed to fill a vacancy on the bench caused by the death of Judge W. E. Greene.

Judge Waste was appointed during the same year as Judge Harris, filling a vacancy caused by the elevation of the late Samuel P. Hall to the Appellate Court. Judge Waste was admitted in 1894 and practiced until 1905, when he was selected superior judge, serving a term in the legislature meanwhile.

Judge Brown was admitted in 1901 and was associated with Hon. Victor H. Metcalf, former Secretary of the Navy, until appointed assistant district attorney. In November 1906 he was elected district attorney, holding this place until 1908, when he was appointed to the superior bench.

So highly are these three judges regarded by the citizenship of Alameda County that no suggestion of changes has been made, with the exception of the Socialist party, which always nominates, whether it has a chance or not. The honor, integrity, ability and sterling qualities of all have so strongly appealed to the electorate that their endorsement will be overwhelming at the primaries.

These judges have enviable records. In civil and criminal procedure and in equity each has distinguished himself. Their records show few reversals and their course of conduct has placed Alameda County in the position of having the best courts in the state. They have worked and are working in perfect harmony, and the business of the courts has been greatly facilitated because of that fact. Delays have been avoided and expenses of litigants limited.

Alameda County is fortunate to be able to re-elect three such able and well-qualified jurists and the citizens should take pride in voting to make their endorsement as nearly unanimous as possible.

## HARVEST TIME IN EUROPE

—BY THE OAKLAND TRIBUNE CARTOONIST.

## WHY GERMANS FIGHT TO CAPTURE LIEGE.

Germany is endeavoring to invade France and strike a blow at the heart of that country. From the Rhine, which is the base of German operations, three routes lead west and south into France. The first starts at Cologne, crosses the Belgian frontier just beyond Aix-la-Chapelle, reaches the Meuse at Liege and ascends the Meuse to enter France between Mauberge and Givet by a natural gap in the divide between the Ois and the Sambre. This is the route followed by the main railroad between Paris and Berlin. It was employed by the allies in the second campaign in the French revolution. The invaders were defeated by the French army, celebrated in song and story as the army of the "Sambre et Meuse," at the decisive battle of Fleurus. Liege lies almost in a direct line between Berlin and Paris. It is about seven miles west of the German-Berlin boundary and about forty miles northeast of the French frontier. Thus by location it is well adapted as a base of operations for the Kaiser's troops. If in danger at any time it could be easily reinforced, while its distance from France would relieve it from attack without due notice. It contains huge gun manufactories, machine shops and breweries and is a desirable point.

The second natural avenue to France starts from Coblenz and ascends the valley of the Moselle until it arrives at Luxemburg. It then crosses into France by Longwy and the gap of Stenay, this being the route followed by the Duke of Brunswick at the first invasion of France at the time of the Revolution and by Blucher in 1814. The first attempt penetrated through Longwy, passed Verdun, which surrendered, and was checked by the famous cannonade of Valmy.

The third approach follows the Rhine Valley from Mayence to Strassburg and then turns west through the famous Saverne gap to cross the French frontier near Lunéville and Nancy and directly in the center of the open space left by the French between Epinal and Toul. This was the route used by all the invaders prior to the time when France seized Alsace in the seventeenth century, and it was to close this gap that Louis XIV and Richelieu strove to acquire the Rhine frontier.

Thus it is seen that conforming to geographical conditions, the Germans are directing at France three great armies, the army of the Meuse, based on Cologne; the army of the Moselle, based on Coblenz, and the army of the Rhine based on Mayence and on Strassburg. The first would naturally become visible when it touched Belgian territory; the second when it crossed Luxemburg; the third would remain masked behind the fortifications of Strassburg. The plans naturally mean that the first two will arrive in France behind the Belfort-Verdun barrier of forts and presumably compel the French to fall back—opening the way for the army of the Rhine and permitting the concentration of all three German armies well within French territory and north of Paris, the German objective.

Thus far the following has occurred. Luxemburg has been occupied and skirmishes have occurred, the fighting growing stiffer as the army of Moselle has been massed. Skirmishing also occurred on the part of the army of the Rhine and French troops. Neither side has obtained any permanent advantages, although the French claim to have repulsed the army of the Moselle and to have offered stubborn resistance resulting in halting the army of the Rhine.

The army of the Meuse has encountered the greatest opposition. Denied permission to cross Belgium, it attempted to force its way, but met with unexpected resistance. The invaders deployed until the force was spread over a front of some thirty miles, the right resting on the Dutch frontier at Vise, the left upon Spa and Stavelot and the center facing Liege. The "brusque offensive" was attempted, but it failed. With Liege in their power the Germans would have all Belgium clear to the sea. They were not after that, however; all they desired was to cross Belgium so as to land in France as quickly as possible. A small garrison at Liege could have then protected the rear. It was worth the sacrifice of some thousands to attempt this, and no doubt the losses of Germany were due to a determination to make the

has given France and England an opportunity to reinforce Belgium. If Liege can hold out permanently the Germans may be able to mask it as the Bulgars did at Adrianople, but this is perilous, as an advance of that sort would leave their flank and rear open to attack by Belgian troops advancing along the Sambre and Meuse from all quarters.

The halting of the army of the Meuse delays the advance of

the army of the Moselle from Luxemburg, which would otherwise leave its right flank and rear open to French attack. Since the forts of the frontier are still unbroken the army of the Rhine must also wait.

Such is the strategic condition to date. The Kaiser is rushing a powerful force to aid the army of the Meuse. It is possible he may hurl enough troops into the gap to overwhelm the opposition, but meanwhile England is marching on his extreme right—so it is reported, while French troops are reinforcing the Belgians at the direct point of attack, and other forces are delaying the advance of the armies of the Moselle and the Rhine.

It is a pretty exhibition of grand tactics thus far, although the Germans appear to have been thwarted in original design. But the developments of the next few days ought to be of intense interest to military men. The unlocking of Belgium means the opening of a high road into France.

## WAR NEWS HELD UP BY CENSORSHIP.

In a candid and direct statement yesterday Melville E. Stone, general manager of the Associated Press, gave reasons why war news was so difficult to obtain. It appears that the military authorities of all countries have censored everything. In Europe the telegraph lines are controlled by the government and nothing is permitted to pass without the most careful scrutiny. All the powers realize that in times of war advertising is not beneficial to marching armies, and accordingly Reuter's agency, the Central News and other associations on the continent are hampered. In addition to the censorship the telegraph offices are congested to an extent that forty-eight hours are sometimes used up before any message can be forwarded. This statement by the Associated Press is timely. It explains everything to the complete satisfaction of the intelligent. The rivals of the Associated Press, however, have no such difficulties. Their news is made up in the imaginations of bright young men in New York City offices and sent out as being "direct from the front," when as a matter of fact thousands and thousands of telegrams from Europe to America, filed by the most influential persons of this country have been held up and are held up. That is the reason why in rivals of the Associated Press we read of "one hundred members of the Reichstag having been summarily executed by order of the Kaiser," and other trash.

England is now a haven of refuge for foreigners. Polish and Jewish residents of London are offering their services because of the friendly and humane treatment received in the British Isles. It pays to cast bread upon the waters.

While the German military authorities may be able to censor the news dispatches from Limberg they will fail when it comes to preventing the famous cheese made there speaking for itself.

The interrogation point up street claims to be printing "the latest and truest" war news. This statement is correct as to the first assertion. It does print the "latest," because it has to wait until THE TRIBUNE is printed in order to get Associated Press dispatches. That is why the question mark is always "late." Of course Associated Press stories are "truest," else the scorching tempered person who runs the paper would not steal them. He knows they are safer than news received over his famous greased wire. For example: You haven't noticed any "tonow up" on that execution of one hundred Socialist members of the reichstag by order of the kaiser, "including Leader Kneblecht," have you?

Following visits by all the candidates to Eureka, a mild outbreak of smallpox is reported in the city. Some of the voters must have absorbed some rash statements made by Progressives.

Belgium is once again playing the role of the innocent bystander with the usual results.

The Salinas Democrat having turned its toes to the daisies, Col. J. Hetherington now has the field to himself with the Index.

French vermouth having advanced \$2 per case, the price of Gibson cocktails is liable to soar. However, there is still the reliable old Manhattan.

## Twenty Years Ago Today

It is a pretty well assured fact that a change will be made in one of Berkeley's public positions at the meeting of the Board of Trustees tonight. The gentleman affected is Town Attorney Hayne, who was appointed by Ed Robinson some months ago. The gentleman slated for the position is the well-known attorney, T. F. Graber.

The cornerstone of St. Joseph's church in Alameda was laid in the presence of 4000 persons. The ceremony was opened with the arrival of a procession at the sacrificial spot and the ceremony of blessing the cross was performed by the Very Rev. Father Prendergast, vicar-general celebrant. The temple, which will cost in the neighborhood of \$20,000, will be one of the finest in Alameda.

The prohibition convention adjourned after selecting its entire ticket. According to the terms of a resolution, these nominations will be made by the county committee. Sheriff, W. H. Bone, Berkeley; district attorney, F. J. Russell, Oakland; county clerk, H. J. Waters, Oakland; tax collector, A. J. McMurty, Oakland; recorder, H. B. Land, Oakland; assessor, Eugene Wilcox, Berkeley; Public Administrator, A. K. Crawford, East Oakland; Auditor, A. J. Burger, Alameda; treasurer, R. W. Land, Oakland; surveyor, H. J. McMath, Oakland; senator, H. Montgomery, Oakland.

The closing feature of the meeting of the Republican County Central Committee was the disposition of the proposition to have the next county convention held in Hayward. A communication was read from leading citizens of the town, guaranteeing a hall free of expense, free of taxes, a brass band without cost and several other inducements. A motion to accept Hayward's proposition received six votes in the affirmative and five votes in the negative. The chair ruled the proposition accepted.

The engagement is announced of Miss Lita Abrigo of Oakland and R. R. Bellingall of San Francisco.

## POINTED PARAGRAPHS.

Rich people say water is fattening. Dignity is a splendid thing—in winter. Your ideas may be only your grouch. Probably the motor car disease is the worst. Don't say it unless you can say to his face. A lot of "inspiration" is mere superstition. While the mosquito sings, it rarely sings one to sleep. Which is the worst, a girl's fancy or just plain ignorance. Liberty is a fine thing, but don't dare practice all of it. When you die your days have been filled with honor. Many believe that the original sin consists of getting caught. Short Jenks: "I once knew a model man. He was a paralytic."

## NOTICE!

Relatives of William J. Moore of Fort Yukon, Alaska, communicate with Lloyd S. Ackerman, attorney, 14 Montgomery street, San Francisco, and learn something to their advantage.

## PAINLESS PATTERSON

The dentist that does his work right. Corner 14th and Washington. Opposite City Hall. Hours: 10 a.m. to 6 p.m. 6222 HYDEBURG

## GOOD VISION IS RARE

Measurements of human eyes demonstrate that there is probably no such thing in the world as an absolutely perfect eye. That would be a miracle which nature, with all her infinite ingenuity, has never performed. No human face among all the world's 1,600,000,000 may be held perfect, either artistically or physiologically. To the owner of the face this is relatively an unimportant matter, but to the owner of the pair of eyes an error of one-three-hundredth of an inch in the curvature of dimensions of the eyeballs may make their all-important function abnormal, resulting in eye-strain with its attendant physical ills. The eye responds to the slightest physical force in the world, that is, light waves which are hundreds of millions of times more infinitesimal than sound waves. The eyes are the hardest worked of all organs and the safety and existence of human lives frequently depend directly on their accurate working. The harmful results of eye-strain, never wholly absent throughout life, may begin very early in childhood, even in the second year. Many little children, for instance, are constantly tearing their clothes, hurting their feet and legs, stumbling and falling, because their eyes are so faulty that their estimates of the size, location and nature of objects are not correctly made. Adults who have been blind and are suddenly given good vision require years to learn to see with accuracy or safety in action. Probably 5 per cent of children are left-handed, left-eyedness causing an error of one-three-hundredth of an inch in the curvature of dimensions of the eyeballs may make their all-important function abnormal, resulting in eye-strain with its attendant physical ills. The eye responds to the slightest physical force in the world, that is, light waves which are hundreds of millions of times more infinitesimal than sound waves. The eyes are the hardest worked of all organs and the safety and existence of human lives frequently depend directly on their accurate working. **CHAMBERLAIN'S LINIMENT.**  
If you are ever troubled with aches, pains or soreness of the muscles, you will appreciate the good qualities of Chamberlain's Liniment. Many suffer from rheumatism and sciatica because of it with the best results. It is especially valuable for lumbago and lameness.

HARVESTER TRUST MUST DISSOLVE

FIREBUG PLIES TORCH IN NIGHT

Box Factory Burns, Following Explosions; Other Blazes Suspicious.

Two fires, believed to have been of incendiary origin, occurred in Oakland early this morning. The Eagle Box Factory, 125 Market street, of which George Roth is the proprietor, was totally destroyed. Prior to the discovery of the fire two explosions were heard in the building and flames immediately burst forth.

The other fire was in a building occupied by Ye Olde Curiosity Shoppe, 734 Seventh street, and the cleaning and dyeing works, conducted by H. Hiram, 738 Seventh street. The fire was discovered shortly after midnight by Patrolman John Garvin and was put out before great damage was done. The upper story of the building is occupied by James Elliott, proprietor of the Curiosity Shoppe, and his family, whose lives were endangered by the fire. Garvin and Sergeant Frank Ahern found razors, papers and shavings placed in the rear of the building, where the fire originated.

POLICE ARE AROUSED.

The mysterious fire early yesterday morning at the Williams & Cooper Market, 3401 Harrison boulevard, which is also declared to have been of incendiary origin, has aroused the police department. It is thought possible that a person or persons in Oakland are endeavoring to destroy the business of the Williams & Cooper Market. The fire at the market is being investigated by Inspector St. Clair Hodgkins and other inspectors will be detailed to assist in the investigation of the two fires this morning.

Two explosions were heard about 1 o'clock this morning by Victor Palm, foreman of the mill. The explosions came from the direction of the Eagle Box Factory and a moment later flames broke forth from the building.

QUICKLY DESTROYED.

An alarm was turned in, but the two-story frame structure burned like tinder and was quickly destroyed. The firemen were unable to do more than confine the flames to the box factory. According to witnesses the explosions apparently came from the direction of the southwest corner of the second story in the box factory, which is not usual by workmen in the place and is used only for storage purposes.

The engines are in the first story in the northwest corner of the building, and it is unlikely that the fire originated from them. The engine in the second story was not used by the firemen when they left last night and there was no possibility of the fire having been caused from this source.

MANY IN DISTRICT.

It is understood that Roth carried no insurance on the box factory. He had a number of barrels of water stationed around the fire which he easily accessible should a fire break out by workmen in the district in the past several years, but Roth has escaped until now.

Patrolman Garvin discovered the fire which consumed Ye Olde Curiosity Shoppe building at the rear of the cleaning and dyeing works at 12:10 this morning. He succeeded in extinguishing the flames himself and was leaving the place when a second fire started at the rear of the Curiosity Shoppe, about forty feet away. Garvin turned in an alarm and this fire was quickly put out by the department. It was then that the shavings, paper and rags were discovered in both places.

The fire in the box factory made a spectacular blaze and burned for several hours. A big crowd gathered to watch the firemen at work. Patrolman L. Lyons made his way to the corner at the back of the burning factory and freed six horses, driving them into the street. The barn at the rear of the place was saved. It is estimated that the damage to the box factory amounted to about \$10,000.

Investigable evidence that the fire at Ye Olde Curiosity Shoppe was of incendiary origin was found later in the morning. There is a shed at the rear of the shop which had been used for storage purposes. This is connected with the main building by a narrow passage. The fire spread from the shed and placed it against the wall on the outside. Rags saturated with coal oil were then lighted under this pile.

A similar pile of furniture and refuse was placed at the rear of the Curiosity Shoppe, which adds to the suspicion that the fire was of incendiary origin.

MOTHERS' CLUBS RESUME ACTIVITIES IN OAKLAND

With the opening of Oakland's schools comes the renewed activity of the various Mothers' Clubs of the city. Child life and its welfare has become the chief theme of the day, how to better the present splendid housing system; how to promote a harmony between the home and the school which will give the highest degree of education and character to the mind and body of the child in close co-relation, so that the harvest of children will be a golden one in the years to come.

The Parent-Teacher Association of the John C. Fremont High School assembled its members recently for the 1914-1915 campaign and immediately launched into an active canvass for members. The present membership is sixty, and within a very few months it will pass the hundred mark. This splendid organization has much new work in anticipation of the year.

The next meeting will be held in the assembly hall of the High School on Thursday, August 13.

Three Killed and Twenty Hurt in N. Y. During Storm

NEW YORK, Aug. 11.—An electric storm, accompanied by a strong wind and brief but heavy downpour of rain swept suddenly over the city and vicinity late last night. Three persons were killed and twenty injured, lightning striking in several places, and the shower of a new subway car in upon Fifth Avenue.

The steamship Scottish Prince of the Pacific line, which left her pier bound for Brazil, ran ashore on Governor's Island while avoiding collision with a ferry boat in the harbor, but was floated undamaged ten minutes later and continued on her course.

TELEGRAPH WAR ON

Postal Company Begins Suit Against Western Union.

SAN FRANCISCO, Aug. 12.—The Postal Telegraph Company started a local war against its rival the Western Union Telegraph Company this morning, when it filed a lengthy complaint with the Railroad Commission charging a violation of the spirit and letter of a recent ruling by the New York Commission and the Court of Appeals of that state.

The Postal Company asks that the Western Union be required to pay 10 per cent on all messages transferred over its lines. It is claimed that the Western Union allows such a concession to hotels, drug stores and other places where it is a transfer point, thereby foreclosing the Postal Company's business.

The action is the outgrowth of a suit brought before the Public Service Commission of New York. The Commission ruled that the practice of the Western Union of inserting in telegrams certain words indicating that a telegram had been transferred to it by another company for transmission and charging the forwarder, therefore was unreasonable and illegal. The State Court of Appeals of New York sustained this decision.

The Western Union Telegraph Company, according to the present complaint, immediately put into effect a rule designed to defeat this order. This rule provides that with certain exceptions every telegram shall show, as its point of origin, the name of the city or town where it was transferred to the Western Union. As a result messages transmitted for a distance over the wires of the Postal Company and then transferred to the Western Union do not show the name of the town in which they were originally filed unless the information is embodied in the telegram.

Special Train Bears Wilson From Funeral

GREENSBORO, N. C., Aug. 12.—The special train bearing President Wilson and his family, returning from Mrs. Wilson's burial at Rome, Ga., passed through here at 3:30 this morning en route to Washington, where it is due at 5 o'clock this afternoon.

HURT IN ELEVATOR AS OPERATOR SLAMS DOOR

BERKELEY, Aug. 12.—Caught by a closing elevator door, George Wilson, a clerk employed at the Oakland Meat Packing company at West Berkeley, sustained a broken leg and other injuries when the operator slammed the door on him by accident. He was removed to the Central hospital and later to his home, 836 West street, Oakland.

BRAZIL ISSUES NOTES

RIO DE JANEIRO, Aug. 12.—Both members of the Brazilian congress approved today the emission of 300,000 notes (approximately \$100,000,000 nominal) of paper. Of this sum 200,000 notes is destined for the payment of treasury creditors and 100,000 notes for the proceeds of the customs duties being allotted for the purpose. The remaining 100,000 notes is intended to aid the banks, which will pay 6 per cent interest and are called on to repurchase them before December 31, 1915.

SHOWS MACHINE IN ACTION.

Demonstration of a machine which can calculate in the millions was given by R. H. Marchant, at the weekly luncheon of the manufacturers' Committee of the Oakland Chamber of Commerce this afternoon. Marchant showed how the machine could work out percentages and minute calculations. He stated that his firm is negotiating for a site for a large factory in Emeryville.

HEIR FOR J. E. DU ROSE.

Word comes from Dunsmuir of the arrival of a son at the home of Mr. and Mrs. J. E. Du Rose, on Friday, July 21. Mrs. Du Rose was formerly Miss Frankie Kilborn of Oakland and popular in the younger social set.

Mrs. J. B. Harriman, War Refugee, Suffers Ptomaine Poisoning

NEW YORK, Aug. 12.—Cable messages from London today announced that Mrs. J. Borden Harriman, who with her husband is a war refugee from Paris. The message stated that Mrs. Harriman is suffering from ptomaine poisoning.

Mrs. Harriman is a member of the commission on industrial relations and one of the first women appointed to an important federal place by President Wilson.

WARSHIPS TO QUIT VERA CRUZ

"MISSING" CO-ED COMES HOME SMALL CRAFT SHE ONLY CHANGED HER MIND

And Didn't Know Search Was Being Made for Her

BERKELEY, Aug. 12.—A woman has a right to change her mind—and that's how pretty Emma Cross, University of California student whose disappearance set the police of the state in a fruitless search, managed to stir up all the row. The peculiar part of it was that she didn't know it. She's turned up to finish her course, mildly surprised at all the fuss.

"There was no mystery about me," she declared. "I was on a vacation. I planned to come direct to my sister's home in San Francisco, but changed my mind and stayed over with friends in Venice. I wrote to my brother, but he evidently didn't get the letter. Then the proprietor of 'The Langdon,' where I boarded in Berkeley, found some of my things in the room and announced my disappearance."

Miss Cross left her brother's home in Watsonville on July 14th, and remained two days in Los Angeles. Later she decided to visit Venice before returning to college.

Miss Cross attracted considerable attention in San Diego some years ago while studying "New Thought." Convinced that a human being could fly by sheer force of will, she tried it, and fell from a window of a tall building. She narrowly escaped death.

MISS EMMA CROSS.

TO PATROL GULF

Admiral Badger Will Retire, and Fletcher Command Atlantic Fleet.

WASHINGTON, Aug. 12.—All the big ships of the Atlantic fleet will be withdrawn from Vera Cruz, where they have been since September 1.

Secretary Daniels announced today it was his intention to leave in Mexican waters only small craft capable of patrol duty or which might necessarily be ordered across the gulf to Domestica or Bahian waters, and a command of the fleet at Hampton Roads on September 1 in succession to Rear Admiral Fletcher, who then retires. At the navy department it was said the movement of the ships had no connection with the European situation, although some of them might be used in safeguarding neutrality.

The peaceful transfer of the reins of government at Mexico City from the Carranza administration to the Constitutionalists actually began yesterday, according to official advices to the State Department.

FEDERALS EVACUATE.

The federal troops evacuated the capital, leaving the city in charge of municipal police, who by agreement were to be regarded as neutral. The federals withdrew from the city to a nearby point, there to await an announcement of amnesty from General Carranza. Should guarantees be refused, officials here do not doubt that a counter revolution will be immediately set in motion.

The Brazilian minister to Mexico, who is caring for the interests there of the United States, and Governor Irujo of the Mexican federal district, and a commission of two others, left during the day for Tula, north of Mexico City, where General Obregon, commander of one of the three big divisions of the Constitutional army, has headquarters. General Carranza is to remain there at once.

The committee is trying to arrange the details of the entry of the Constitutional forces. No definite word has been received here up to late today as to Provisional President Carranza, but it was understood he would leave the capital for Vera Cruz within twenty-four hours.

VILLA AND RECOGNITION.

With the entry of Constitutional forces in Mexico City, the question of recognition for the new government confronts Washington. There is every reason to believe recognition will be withheld until there is an election or political convention, at which some expression of the attitude of the people toward the new government can be obtained.

Disquieting advices are again coming from reliable sources that General Villa, who is now south with his men, as ordered by Carranza, will withdraw to the north and demand a convention of representatives of the army, as agreed to in the Torreon conference.

Should this be refused by Carranza a new revolution in the north would not be surprising to many high officials here.

CARRANZA NAMES CABINET.

EL PASO, Tex., Aug. 12.—General Carranza has begun perfection of his civil government. In addition to appointment of Eduardo Huerta as acting secretary of war, it was reported officially today that Alberto J. Pani had been made treasurer-general, and General G. Gutierrez governor of Michoacan state. Gutierrez is credited with having been the first leader to rise in arms against the Huerta government.

FLEES AFTER ONLY FOUR HOURS OF WEDDED BLISS

SAN FRANCISCO, Aug. 12.—Only four hours of wedded bliss was granted Sarah A. Barley of Oakland, following her marriage with James Barley, before hubby fled from her and has since remained away. She declares that she was deceived into marrying him and this morning petitioned the superior court for an annulment.

Mrs. Barley, who has retained Attorneys Miller and Dunn of Oakland to look out for her interests, asserts that Barley told her he was a man of exemplary habits and a total abstainer from intoxicating beverages. She pictures him in her complaint as a model of virtue from his own standpoint. Immediately after the wedding, she avers, however, she discovered that he was far from an angel. She learned, she said, that he had numerous affinities, that he was in the habit of frequenting questionable resorts and that one of the women to whom he had paid attention, procured a warrant for his arrest. She charges that he is even now a fugitive from justice.

BROTHER MAKES CHARGE.

H. L. Hawkins was arrested yesterday in San Francisco by inspectors of the Oakland police department on a charge of petty larceny. Hawkins, who has served several sentences for petty offenses, is alleged to have taken clothing valued at \$250 from his brother, Louis Hawkins, with whom he was rooming. Hawkins was brought to Oakland this morning.

SALOON REPORTS \$160 THEFT.

Theft of \$150 from the safe of the Landragan & White liquor store, Adelaide and Sixty-first streets, has been reported to the police. It is believed that the theft was what is known in police parlance as an "inside job," as the place was apparently but little disturbed and the money was taken from a hiding place.

TO HOUSE CITY'S HARBOR OFFICES

All Departments Will Be Concentrated in Oakland Harbor Building Now.

The harbor department of the city, including the waterfront engineer's office, the harbor master's office, the city wharfinger and other similar departments, are to be housed in an Oakland harbor building on the southeast corner of First and Washington, which is the property of the city. The building was recently leased, but was later given up and instead of leasing it again, Commissioner of Public Works Harry S. Anderson has decided to concentrate the harbor departments of the city at this place.

That the concentration of harbor construction and management in one building will facilitate the development of the port of Oakland and will place the harbor management on a thorough business basis is the belief of Commissioner Anderson. Anderson also declares that manufacturers and prospective shippers will be impressed with the fact that Oakland is in the harbor business and ready for action. To this end a large and handsome sign, "Oakland Harbor Building" will be set in place and a flagstaff will be erected to carry the colors.

The harbor building is a substantial two-story brick structure. It was erected originally for the Taylor Lumber Company, leasing the land from the city, and was subsequently transferred to the Standard Supply Company. When this concern went out of business and relinquished its lease, the building reverted to the city as municipal property.

Furniture discarded from the City Hall Annex will be used in furnishing the harbor building. The City Hall Annex will probably be abandoned September 1, and the departments housed there removed to the new City Hall.

COLORED LADIES WILL MEET.

The Colored Women's Republican Club of Alameda county will meet at Start King hall on Friday evening, August 14, 8:30, when several of the candidates for office will speak in their behalf. The public is invited.

CITIES MAY COMPROMISE

Would Adjust Rival Consolidation Plans

(From Los Angeles Examiner, Aug. 11.)

LOS ANGELES, Aug. 11.—City Attorney Albert Lee Stephens left Los Angeles last night on the "Lark" for San Francisco and Oakland, where he proposes to confer with officials of both northern cities on the situation presented by reason of Oakland's counter constitutional amendment providing for city and county consolidation.

According to President Whiffen of the City Council, City Attorney Stephens goes north as a "mediator" to effect, if possible, a harmonious understanding among all three cities with reference to one of the proposed constitutional amendments.

The decision to send Stephens North was reached at an executive conference of the City Council yesterday morning. City Attorney Stephens was present at the conference. President Whiffen said: "The submission of the Oakland amendment along with our plans Los Angeles in a peculiar position unfortunately. It seems that the Oakland amendment will not affect Los Angeles in the least. In other words, either amendment will be all right for Los Angeles, but the scrap is between San Francisco and Oakland. The

CITY DEPARTMENTS READY TO VACATE

Commissioner Anderson Announces Moving Day From Broadway Annex.

Commissioner of Public Works Harry S. Anderson has announced moving day from the City Hall Annex on Broadway, to the new offices in the City Hall for September 1. The street department, treasurer's office, park and playground departments, permit and license department, health department and board of education, will commence to move the beginning of the month.

Most of the furniture for the City Hall has arrived and now being installed. The departments will be transferred as fast as their offices are fitted up.

A problem was presented as to what should be done with the old furniture now in use in the City Hall Annex, but Anderson has practically solved this by deciding that this furniture shall be used in fitting up the outside police stations and branch offices and branch public libraries. Many requisitions have come in for furniture for these outside stations, as they are at present getting along with makeshift furnishings. The remainder, after these offices have been provided, will probably be disposed of at a fire sale.

DISMISS OLD CASE.

Clem E. Payne, arrested on a warrant two years old, charging him with failure to provide for his first wife, was released today by Judge George Samuels and the case was stricken from the calendar. Payne explained to the court that he was married to the woman of his first wife. The address given in the complaint sworn by Mrs. Payne was a private residence. It was visited by the police and it was found that Mrs. Payne had moved, and that nobody in the neighborhood knew her present whereabouts. The prosecuting witness having disappeared, the case was dismissed. There was an allegation that Payne had committed bigamy, but he presented documents to show that he had obtained a divorce from his first wife.

COMPANY IS ORDERED TO SUBMIT UNMERGING PLAN OR ENTER RECEIVERSHIP

today was declared to be a monopoly in restraint of interstate and foreign trade and was ordered dissolved by a majority decision filed here by Judges Smith and Hook in the United States Court. Judge Walter H. Sanborn dissented. Unless the corporation submits a plan for dissolution within ninety days the court will entertain an application for a receiver.

The suit in which decision was handed down today was filed April 30, 1912, in the Federal District Court at St. Paul. In its petition the government asked:

"That the \$140,000,000 corporation be dissolved on the ground that it was a monopoly in restraint of trade. That injunctions be issued to bar from interstate commerce the products of the International Harvester Company or of the International Harvester Company of America, its selling agency.

"That receivers be appointed to take charge of the property and wind up the business of the defendant, if the court finds such action compatible with public interests.

APPEAL AT ONCE.

CHICAGO, Aug. 12.—The Harvester case will be taken to the Supreme court of the United States as soon as possible, according to a statement made here today by Cyrus H. McCormick, president of the International Harvester Company. McCormick said:

"The adverse decision is a great disappointment. As I understand it is not based on actual wrongs done in the conduct of the business of the International Harvester Company, but on the elimination of competition more than ten years ago between the companies whose properties were purchased by it.

"The adverse opinion acquits the company and its officers and directors of the charge of over-capitalization and unfair and oppressive policies and practices.

"It does not sustain the charge made in the petition of the government, but abandoned on the argument, that the company has charged excessive or unfair prices.

"The organization of the company is condemned by the majority of the court as a violation of the Sherman act, but the company is not found guilty of having violated the law in the conduct of its business or having injured its customers or its competitors.

"The conclusion arrived at seems to be that the harvester is a good but illegal trust.

"The decision is by a divided court and the case will not be ended until the Supreme court has spoken the last word. We still hope that the great public benefits secured by the organization of the company and the methods adopted in carrying on its business will be made permanent by the final decision in the court of last resort. It is the opinion of the company that it will hold the view expressed in the dissenting opinion of Judge Sanborn."

Warburg's Testimony in Senate Revealed

WASHINGTON, Aug. 12.—Paul M. Warburg's testimony before the Senate Banking Committee made public today, revealed that as a member of the new Federal reserve board he will invest himself of every financial interest, although not required by law to do so.

"I am going to leave Kuhn, Loeb & Co., and I am going to leave my Hamburg firm," Mr. Warburg told the committee.

"I am going to leave every single corporation which I am connected with. More than that I am going to leave every educational and philanthropic association with which I have been connected, because I think a man who is on that Federal reserve board ought to be like Caesar's wife; he ought to be above suspicion; he ought to be without any entangling alliances."

TRACE BUBONIC PLAGUE TO CITY OF LIVERPOOL

NEW ORLEANS, Aug. 12.—Dr. W. C. Rucker, Assistant Surgeon General, who is leading the fight against bubonic plague here, today said that he had received word from Surgeon-General Blue at Washington that two deaths from plague recently had occurred in Liverpool. This led to the belief here that possibly the source of the infection of the first case in New Orleans might be traced to that city. A particularly obstinate point of infection is near the place where ships from Liverpool dock here. No additional human infections have been reported here in eleven days.

WATCHES THIEF STEAL.

SAN FRANCISCO, Aug. 12.—V. Jorgensen, who resides at the Golden West Hotel, was awakened this morning by a burglar, who was ransacking his suitcase. Jorgensen saw the man gathering up a quantity of clothing, jumped from his bed and was about to give battle to him, when the thief slammed the door and locked it on the outside. By the time the night clerk was aroused the thief had fled, taking valuables to the amount of \$114.

J. A. MUNRO & CO., Auctioneers.

COMPANY OF OILS.

The company was incorporated in New Jersey with a capital stock originally of \$120,000,000. The control of the capital stock was placed in the hands of three voting trustees: Cyrus H. McCormick, Charles Deering, and George W. Perkins, who held stock trust certificates to the persons actually owning the stocks.

## Getting Away From Yesterday

**T**ODAY we must abandon some of yesterday's methods. New ideas, new methods, new friends must be sought today. The battle for a bigger, better, busier business goes on and on. ¶ You install new and better machines, you are seeking more efficient employees, you are constantly improving your business here and there; your capacity is greater, you need more business; now, why not employ a printer who can give you new ideas; a creative, constructive printer who can put a "KICK" and a "PUNCH" into your booklet, folder, circular, letterhead or card. These silent messengers represent you or misrepresent you. Asking to see samples of what the other fellow had printed is taking advantage of his originality. ¶ Let us help you to originate and blaze the trail of your representative with printed matter of the right sort and watch the steady increase of your business. ¶ This department of complete service we now call

## ABSENCE BRIEF, BUT VOWS FAIL

Young Couple, Parted by Law. Weep, but Soon Forget.

"Good-bye, Dear—I won't forget. I'll never care for any other girl but you, and we will be married the day I become of age," said Lester Crawford.

"I don't think you will forget. I'm sure my love is as changeless as the stars—as steadfast as was the affection of Rachel and Ruth, the sweetest maids of Palestine," said Lavinia Koppe.

And then they parted. All of which happened in the courtroom of Judge Rives of the

of July when Lester Crawford was turned over to his father, who as his guardian stated that he would prevent his son marrying Miss Koppe at least until he became of age.

Both the young people were in tears as they parted, both sobbed their way from the courtroom. In his desperation to marry Miss Koppe, his little, crippled sweetheart, young Crawford had caused his father to

state detectives, twice arrested at the behest of his father, and at last taken into court on a guardianship procedure.

### HE PROMISED

As he left the courtroom young Crawford promised his father on his word to obey him and cause him no more trouble until he became of age.

But the scene has changed. The pretty story of the love of Jacob for Rachel, of the love of Ruth that was told in the courtroom with such a burning effect on the young people has been forgotten.

There is an old Indian legend that fire burns quickest when it flames brightest. Pasadena friends of the young people state that this legend holds true with their love.

Crawford disappeared within two hours after he promised his father that he would obey him. Without home, friends or money, without love or communication with the girl he swore to adore until the end of all time, he has fled to the open country.

The young man left behind him a brokenhearted father who has dismissed his corps of private detectives and given up the chase after spending, it is said, more than \$2000 in trying to prevent his son from becoming the husband of Miss Koppe and thereafter a missionary of the Nazarene faith to Japan.

When he left behind him also the girl from whom he had been parted.

### AND SHE, TOO.

But the girl tired of it all and returned to San Diego. The announcement, the notoriety and the general bother to which she had been subjected in her sweetheart's mad attempt to marry her against all opposition made her narrow and reports from San Diego, where she now lives, state, according to the statements of Pasadena acquaintances, that she is no longer concerning herself about the young man.

In short, it is believed that love once triumphant and as beautifully real as the two great Biblical characters, has waned and cooled and passed out of their lives.

The Crawford family, which is wealthy, no longer concerns itself over the whereabouts or the actions of its headstrong son, and friends of Miss Koppe state that she has no intention of returning to Pasadena.

And it was just one month ago Saturday that the two stood together in the courtroom and pledged everlasting love.

## Play the Mikado Grads Perform

MISS BARBARA MILLER.

By special request the students of the Oakland High School who appeared in the Mikado last June at the Westborough theater, will repeat the production Friday evening in their new school building.

The famous Gilbert and Sullivan opera will be given by the boys and girls of the graduating class of June 1914, and the players will be coached by Fred Carlie, who trained the young thespians at their recent performance.

In the cast will be Mervyn Sanborn, Harold Rice, Preston Snook, Orville Caldwell, Fred Ebelert, Russell MacDonald, Barbara Miller, Marion Oliver, Fannie Smith and Marian Finer.

The chorus of school girls, nobles, guards and coolies will be as follows: Alfred Montague, Norman Edlert, Jesse Ingels, Raymond Montague, Voltaire Bright, Cletus Howell, Russell MacDonald, Ernie Peters, Harold Nold, Harold Barradille, Lorraine Massey, Kai Wong, Mervyn Sanborn, Emma Abernath, Eva Bowne, Ethel Dunning, Helen Hahn, Lendall Jacobs, Gladys Kessler, Ray, Doris, Scovran, Marjorie Avery, Ethel Cather, Clara Goodwin, Gail, a Hall, Eleanor Jennings, Mave Lardo, Elizabeth Merriman, Grace Paul, Ethel Rosewall, Grace Sarnoff, Dora Sarnoff, Dora Dinkelspiel, Esther Hann, Valborg Hansen, Anna Kessler, Eleanor Little, Bea Wilson, Mildred Proctor, Ethel Reger, Florence Travers.

## GUN 'UNLOADED,' SLAYS FRIEND

Victim Forgives Lifelong Companion Who Snapped Revolver.

Reading, Aug. 12.—W. Riley, engineer at the Terry saw mill near Round Mountain died here yesterday from a gunshot wound accidentally inflicted Sunday by his lifelong friend Fred Riley. The latter, his hands full of sawdust, had his revolver unloaded, snapped it again and again. The sixth pull of the trigger discharged a cartridge. The bullet went clear through Riley's abdomen. He lay for two days before he died.

Yuba City, Aug. 12.—J. H. Green, father of Fred Riley, died here yesterday from a gunshot wound. He was 55 years of age.

Sacramento, Aug. 12.—A loan of \$1,000,000, the largest ever made in the history of the State, was made Monday by the State to the Yuba County Fair. The money was loaned in gold coin to San Francisco and carried to the depot there by special train.

Moss Beach, Aug. 12.—An automobile race between San Francisco and the coast town was held here today. The race was won by a car from San Francisco, which was driven by a man named "Red" Dwyer.

GRIDLEY, Aug. 12.—Co-operation not only of State but of Federal officials as well, has been secured by the executive committee having charge of the coming Butte County Rice Exposition at Gridley, on September 3, 4, 5 and 6. This exposition is notable by reason of the fact that for the first time in the history of the United States, a rice exposition is being given north of the Mason and Dixon line.

According to advices received from the Department of Agriculture at Washington, officials connected with that department will be in attendance at the exposition to give information concerning the industry to rice growers and prospective rice growers.

THE STATE DEPT. OF AGRICULTURE is planning to co-operate in making the exposition one of the most noteworthy of its kind that have yet been given.

OAKLAND WOMEN ATTEND Y. W. C. A. CONFERENCE

About thirty representatives of the Oakland Young Women's Christian Association will attend the annual conference of the association to be held at Asilomar, commencing next Friday and continuing

convention leaders who will take part in the convention are Miss Charles Williams, Mrs. H. C. Peters, Mrs. A. S. H. Rowe, Mrs. Raymond C. Jones, Mrs. Martha Haver, Mrs. Ralph Merrill, Mrs. Warren Oliver and Miss Annie W. Brewer. Miss Grace Fisher, president of the Oakland Young Women's Christian Association, the secretaries and many of the members of the Oakland organization will be present.

ACUTE INDIGESTION. "I was annoyed for over a year by a complaint," writes Mrs. M. J. Gallagher, Geneva, N. Y. "I tried everything that was recommended to me for the complaint, but nothing did me much good until about four months ago I saw Chamberlain's Tablets advertised in a newspaper. I bought a bottle of them from our druggist. I soon noticed that I had gotten the right thing, for they helped me the first time. Since taking two bottles of them I am now hearty without any bad effects." Sold by Coughlin Bros. Drug Stores.

## WIDOW, SON AND MAN DISAPPEAR

Relatives Believe She Is Drowned; Baggage Man Does Not.

LONG BEACH, Aug. 12.—The prattle of a child, prognostic of tragedy, today set the machinery in motion to facilitate a search for Mrs. Margie Ealy, her 7-year-old son and Dan Cleghorn, a life-guard.

Mrs. Ealy, a prepossessing widow of 30, was last seen today yesterday under circumstances inspiring grave fears for her safety. When Cleghorn, a friend of Mrs. Ealy's, was sought by the authorities in the hope of ascertaining her whereabouts, it was found that he, too, had departed suddenly.

Mrs. Ealy and her son are thought to have left their apartment the following day. A truck driver today identified Mrs. Ealy as the woman whose trunk he delivered at the Salt Lake depot and checked them to San Francisco via the steamship Yale at San Pedro. He said Mrs. Ealy insisted on riding with him to the depot and she and her son shared the seat with him. The authorities of San Francisco have been requested to assist in the search.

Statements concerning Mrs. Ealy, said to have been made by Cleghorn, have an important bearing on the mystery. It is believed this man can give the information desired by the authorities, and an extensive search for him is being prosecuted.

A search of his lodgings, at 711 West Broadway, where Mrs. Ealy and her son also maintained apartments, disclosed the fact that Cleghorn had departed hurriedly, leaving his room in confusion.

Mrs. Ealy, who is skilled in aquatics, today appealed to the superior court to lighten his sufferings and give him an opportunity to recover his health. This fact that Cleghorn had departed hurriedly, leaving his room in confusion.

## Linoleum four yards wide

An error in our last Sunday advertisement corrected

Through a mistake in our last Sunday's advertisements in THE TRIBUNE and Oakland Examiner, this Linoleum was quoted at \$1.00 laid, and 90¢ not laid, while it should have been 90¢ laid and 80¢ not laid.

We are showing some delightful patterns in our Carpet Department rolled out on the floor, so you can see how they will look in your home. Cover a room twelve feet wide without a seam—lasts longer and looks better.

80c Not laid Sold on easy terms. Special per square yard 90c Laid

Special 3 rooms complete \$143.30 This is a splendid value shown in rooms on our second floor; it includes everything for housekeeping—rugs and linoleum for the floor, set of dishes, cooking utensils and bedding. Terms \$15.00 down, \$3.00 week

One price. Dignified Credit JACKSON'S CASH OR TIME.

## BANKER BEGS FOR SPEEDY DIVORCE

Aged and Ill, He Wishes Quick Hearing of Bride's Charge.

LOS ANGELES, Aug. 12.—Broken in health by the allegation that his beautiful young wife had given her love to another, M. J. Monnette, wealthy banker, today appealed to the superior court to lighten his sufferings and give him an opportunity to recover his health.

Mr. Monnette declared in a petition filed by him, can be done by the court advancing his suit on the court calendar and giving it precedence.

Judge Monroe will decide after hearing Attorney W. A. Alderson's arguments. Mr. Monnette in his petition asserts he is 57 years old and in very poor health. He said, speaking in the third person, "Plaintiff's suit was begun July 6, 1914. Mrs. Monnette did not make answer and a default was entered August 8, 1914. The plaintiff is 57 years old. Since Mrs. Monnette's suit was begun, she has been in poor health and has been unable to do any work."

600 BOYS START STRIKE. EAST LIVERPOOL, Ohio, Aug. 12. Demanding the discharge of all foreigners in the steel mills 600 boys, employed as mold runners and batters up, yesterday went on strike, closing down thirty-six potteries and throwing 5000 workers out of employment. The manufacturers told the boys they would hire only Americans, English and Irish if competent men could be obtained. This was not satisfactory to the boys.

STEAMER DEPARTS FOR N. Y. BY WAY OF CANAL. SAN FRANCISCO, Aug. 12.—With sirens and whistles shrieking their farewell, on the bay along the waterfront, the big American-Hawaiian steamer, Nebraska, loaded to the waterline, steamed from this port on its "Through the Canal" boosting trip to New York yesterday afternoon.

City officials, shipping men and a great crowd of interested citizens were on the dock to witness the departure of the vessel and wish those aboard "bon voyage."

Mayor Rolph and other members of the city government and a delegation from the Chamber of Commerce, present, Captain G. B. Knight and officials aboard a testimonial to bear east with them from the growers, shipping men and citizens of California, expressing good wishes.

The Nebraska, which has been selected to officially represent San Francisco through the canal on opening to the commerce of the world, was loaded to the waterline with California products.

## CHINESE TONG WARS IN SAN JOAQUIN ARE ENDED

FRESNO, Aug. 12.—No longer will the San Joaquin valley hear of Chinese tong wars. Representatives of the Chinese Six Companies from counties in the lower San Joaquin valley met here yesterday and organized into one body. According to C. K. Young, a Fresno Chinese, the mediative policy will be adopted for all disputes that may arise in the future.

Prominent local Chinese regard the organization of the Six Companies as one of the most important steps that has been taken by the Chinese in California. The consolidation of the tong was accompanied by the fluttering of Chinese and American flags, with a display of the emblems of the six tong and an American brass band that played popular airs.

The business session was held in a joss house.

## ECZEMA ON CHILD'S BODY

Began as Rash, Itched so Had to Hold His Hands While Sleeping. Clothing Irritated Trouble, Face and Scalp Covered. Cuticura Soap and Ointment Healed.

870 High St., Oshkosh, Wis.—"When about two months old my nephew had sores break out on different parts of his body. The trouble first began as a rash which itched so at night someone always held his hands even while sleeping as at the least scratching it would run together and form sores. His night-clothes had to have mittens on them or the sores would be raw and bleeding by morning. His clothing or the least friction irritated the trouble. His face and scalp were covered. They called it eczema.

"We tried different treatments but none cured him. At three years old we commenced the use of Cuticura Soap and Ointment. We could see an improvement after the first month's treatment. It took nearly a year to effect a complete cure and he never had anything like it since." (Signed) Mrs. J. Seefeld, Mar. 21, 1914.

Samples Free by Mail

Care for your hair with Cuticura Soap and Cuticura Ointment. They keep the scalp cool and free from dandruff, itching and irritation and promote natural hair-growing conditions when all else fails.
